## MISS CANADA CROWNS MISS BLOSSOM QUEEN

When Ellen McClenahan was named as the judges' choice to wear the Blossom Queen crown, on hand to crown her was Betty Jean Ferguson, Miss Canada of 1948. Here the crown that has been worn by numerous Blossom Queens in the past, is placed on the head of Miss McClenahan by charming Betty Jean Ferguson. The Queen was presented with a large armful of flowers, a gift of Coles' Florist, Grimsby, and

also received an inscribed gold bracelet with the compliments of the Optimist Club of Grimsby, this presented by Gord McGregor, chairman of the Blossom Committee. The Blossom Queen is scheduled to appear at the Blossom Horse Show this Saturday at Winona, and will also display her singing ability at Peggy O'Neil's Supper Dance the same evening.

## Blossom Time Cavalcade of Queens

### The Editor Is Out Of Circulation

Well, folks, it was bound to happen sooner or later. Hard work and old age is bound to creep up on any person. It has crept up on me.

For the next three months I am absolutely out of circulation insofar as editorial work and practically every other kind of work in connection with Lincoln's Leading Weekly is concerned.

Upon the advice of my family physician, Dr. A. F. McIntyre, and my Optometrist, Vernon Tuck, I am out of the newspaper picture for at least the next three months.

Fifty years is a long time—for it was on July 1st, 1899, that my late Father first started me in the newspaper and printing business, washing rollers, in the old office—to be editing copy of all kinds and descriptions. Enough copy to fill three or four railroad box cars. At last the strain has caught up with me. I must do what my medical adviser tells me to do.

From now on, until the end of August anyway, "Little Dyke" will be in supreme command of The Independent ship. Gord McGregor has been stepped up into the Editor's chair and Art Brydon has been taken on staff. I hope that the public will extend to them the same courtesy and helpfulness particularly the ladies' organizations, that they have extended to me.

It's just one of those things, folks, and it cannot be helped.

Yours for a Greater Grimsby,

J. ORLON LIVINGSTON,  
Editor, The Grimsby Independent.

Complete with police escort and thirty roaring motorcycles, the Cavalcade of Queens made a historic tour of the Peninsula on Sunday afternoon, with many hundreds lining the streets of Burlington, Hamilton, Grimsby, Beaverville, St. Catharines and Niagara Falls in order to get a glimpse of the Blossom Queen and the other charming young ladies taking part in the Jaycee sponsored Motorcade. Gaily decorated convertibles carried the Queen and her court, each girl being escorted by dashing young gentlemen resplendent in their top hats and tails. At the front of the Motorcade, the Beaverville Citizens' Band bumped along, and added much to the event, although a chilling wind turned fingers blue, and hampered their playing to some extent.

Behind the band, the Blossom Queen, Ellen McClenahan, 19-year-old student of Burlington High School, rode midst a setting of Blanche and Blossoms. In the other open cars appeared Bea Demerling, Miss Grimsby of 1949, Ruth Clark, Olga Trechuk, Carol Baxter and Joyce Byford, all local girls. From Niagara Falls, came Barbara Burberry, and representing Welland was Jeannine Poitras. Marlene Spikman represented St. Catharines. (Continued on Page 10)

### PEACH DAIRY BAR RE-OPENS SATURDAY

A former Grimsby man, Stanley Tragara, has returned to town and is to reopen the Peach Bar on Saturday, May 21. Mr. Tragara first came to Grimsby in 1944 when he purchased the late C. Rushton, restaurant from the period of operation he sold. Restaurant to be present owner. He has a hotel for some time. The Bar from Mr. W. H. Thompson's bar after completely removing it is open for business.

The Bar itself has been redecorated and the seating arrangement changed so that it will now accommodate some 65 people. The bar is set in a north-south parallel arrangement and the soda bar, where all manner of ice cream concoctions will be served, sits at the east wall. The floor has been (Continued on Page 10)

## PETITION PLUGS PARKING PLAN; PARKING LIMIT NOW ONE HOUR

### SIR JOHN A. DID NOT APPEAR AS MANAGEMENT ADVERTISED

### STONEY CREEKERS ARE NOW TURNING THE DIAL

Days Of The Sweet Voiced "Little Blue Bell" And Her Number Please" Are Gone Forever.

Telephone users in Stoney Creek started turning dials instead of the familiar hand-crank of the old magneto telephones when the new Stoney Creek dial exchange came into service last Sunday morning. The new exchange is now serving some 700 subscribers previously connected with the Winona exchange, and approximately 115 new subscribers in the Stoney Creek area.

The changeover was effected quietly at about 5:30 a.m. Sunday, and the dial exchange was in full operation before most subscribers were awake.

On Friday evening, preceding the takeover, a small party of civic officials from Stoney Creek and Saltfleet township visited the new exchange and inspected the dial equipment. Included in the party were Joseph Platt, reeve of Stoney Creek and C. T. D. Banting, reeve of Saltfleet township, and members of both the village and township councils.

After the tour of inspection, the (Continued on page 13)

Great Political Figure Was Supposed To Have Opened The New Pantheon At Grimsby Park On Dominion Day, 1888—Rival Parks In Feud.

By HOLLIS  
When an old cottage at the Beach was being remodelled last fall, a magazine, brittle with age, was found in a partition. It was a copy of LIFE, "A Journal for men and women published every Saturday" at 65 Yonge St., Toronto. The price was 5 cents, and the date, August 18, 1888—61 years ago. The publishers were Nichol and Calger.

We are indebted to Mr. W. Clark for the loan of the magazine, which contains a news column about Grimsby Park visitors and cottagers under the heading "Gossip from Grimsby." Perhaps some of the names will be remembered by older residents of the Beach, so we give it in full.

The Jolly Wanderers were photographed by Mr. Ford last Saturday.

The young ladies of the park gave their friends who came over last Saturday a very pleasant surprise. The surprise was a hay-rack ride to Grimsby. A pleasant evening was spent, the party returning to the encampment at 11 p.m. Although three or four of them came to the ground on account of the rack giving way, no one was hurt.

(Continued on Page 13)

### RESTRICTIONS LIFTED

On Friday afternoon last, Secretary G. O. Bourne, of the Grimsby Hydro Commission received the following telegram, which is self explanatory:

"Effective Monday, May 16th, restrictions on interior store lighting will be lifted. Present restrictions on show window lighting between the hours of seven a.m. and six p.m., Monday to Friday, inclusive, will remain in effect."

These instructions were received from the Regional Manager of the Ontario Power Commission, at Niagara Falls.

### FILMS STOLEN FROM PARKING LOT

Four metal containers containing films were stolen from a parking lot in Grimsby, Monday afternoon, the loss being considerable to the owner. In view of the fact that the contents are of no use to the person stealing same, it is quite likely that the containers will be abandoned. Should anyone find these containers, they are requested to contact Chief of Police James at Grimsby 123.

Council Gives Okay To High School Area — Bonham Again Blasts Town Policing — Salary Increases Granted To Some Town Employees — Possibility That People Will Vote On Future Of Parking Problems—Council Visited By Ex-Mayor And Councillor.

In a long and hectic meeting on Friday, May 13th, the Grimsby town council again considered the contentious issue of parking meters. A delegation appeared from the merchants of the town and presented a petition to council on which were the names of some 37 merchants who are opposed to the installation of the meters. Considerable discussion ensued on the question.

M. A. Johnson of Grimsby, spoke for the delegation and presented the petition to the mayor. Mr. Johnson also asked if there was a bylaw passed in regard to the No Parking signs by the local fire hall. Councillor Scott replied that there was no such law but that he felt that it was a matter of common sense to keep the area in front of the fire hall clear and also to provide space for the police chief's car. Mr. Johnson then said that the restricted area was not well enough publicized. Mr. Scott agreed and the matter was dropped.

Mr. Richard Theal of Grimsby stated that he thought that the meters were worth nothing since the town was so small and that other towns of a similar size such (Continued on page 7)

### THE GRIMSBY JUNIOR OPTIMIST CLUB

The Grimsby Junior Optimist Club has formed a small softball league within their own club consisting of four teams. The team captains are: Jim Lawson, Cliff Schwab, Bruce Selby, Burston Vermeer.

There will be a doubleheader one night a week. The doubleheader will be held the night on which the club will be able to obtain the Public School ball diamond. The winning team will be awarded a prize. Plans are being made to obtain equipment for the club.

### BLOSSOM PRINCESSES FROM BLOSSOMLAND

Climaxing one of the most colorful blossom seasons since pre-war days, the Oak Room of the Village Inn was packed to capacity on Friday night, when the Optimist Club of Grimsby, sponsored a Blossom Time Ball. From the seven beautiful and talented young ladies entered, the panel of judges selected Miss Ellen McClenahan of Burlington, as Niagara Blossom Queen for 1949. All the girls were sponsored by Optimist Clubs from throughout the Peninsula, and already the

Grimsby Club is making long range plans for a bigger and better Pageant next Spring.

Seated from left to right: Gloria Jean Edwards, Portara Falls; Beth Gilliland, Hamilton; Barbara Burberry, Niagara Falls; Ellen McClenahan, Burlington, the newly crowned Blossom Queen. Standing: Jeannine Poitras, Welland; Marlene Spikman, St. Catharines; Bea Demerling, Grimsby, who was crowned Miss Grimsby the week previous.

FRANK FAIRBORN, JR.

True independence is never afraid of appearing dependent, and true dependence leads always to the most perfect independence.

## Our Rugged Automobile Pioneers

(Editorial in Hamilton Spectator)

Memories, both frightening and precious, are evoked by that ancient model pictured in the Spectator.

Motoring, forty or forty-five years ago when the horseless carriage was still a vehicle of doubtful performance and uncertain potentialities, was an enterprise of hazard. To set out for North Bay, say, was like crossing the Gobi and to dare the unknown; the mere attempt stamped one as having the mettle of an Elizabethan adventurer. To make Toronto in five or six hours, non-stop, was to hang up a record and acquire a reputation for derring-do.

Highways, as this age knows them, did not exist. They were simply roads that became rural quagmires in spring and dust bowls in summer. Drivers wore special caps and goggles; women tied their hats on with ample veils usually green in colour. Both wore dusters. They needed them, too, tearing over the countryside at twelve and fifteen miles an hour, terrifying livestock, setting horses to leap fences and infuriating farmers who spoke of automobiles as "them plagued things."

Breakdowns were frequent and their cause baffling. Something, somewhere in the

carriage's innards, would go off with a bang or a string of firecrackers and the pesky thing would stop dead. The driver, with more tools than a steamfitter and master of the combined skills of a millwright and the chief engineer of a luxury liner, would have to crawl under the chassis and there, on his back, toy and tinker, fume and fuss, until he could coax a cough out of it. Meanwhile, his wife would sit patiently in her seat and nonchalantly read a book. More than one wife succeeded in thus getting through Gibbon's Decline and Fall quite comfortably during a summer while Elmer the Great lay prone and behaved like a master mechanic.

Heading for home again, all would go well perhaps until King and James Streets were reached. Then the critter would start acting up again, sputter and growl, expel torrents of fire from its exhaust and do everything but kick and whinny. Then, finally, there would be a deafening internal report that threatened to rip it asunder and caused a milkman's horse to run away. That infernal car next belched a cloud of black smoke and went merrily on its way. Scoffing pedestrians would observe: "He must be burning soft coal."

Yes, sir. Motoring was quite an adventure in those wild days.

### LECTURE ON TOURISM

R. M. Harrison, in The Windsor Star writes some pungent stuff on how we should treat American visitors in going after their business:

As general manager of the Ontario Motor League, W. G. Robertson hits at the use of American flags on Canadian tourist centres. "Canada should not use imitation techniques to attract tourists," the Torontonian declares. "American flags are not needed. Americans come here to see something different. They don't want to see a Canada that looks like the U.S.A." And this is said in no sense of disrespect for the Stars and Stripes. Only last summer we overheard a visitor from Pennsylvania ask a tourist camp owner on King's Highway No. 2: "Say, brother, why don't you fly your own flag?" Old Glory floated over the camp, but no Union Jack, no Red Ensign, Quebec can give Ontario cards and spades in the matter of originality along the tourist front. Tourists flock there by hundreds of thousands because the province has preserved her ancient traditions and quaint customs. Perhaps Ontario's traditions are not so ancient nor her customs quite so quaint. Still, we have much to offer the stranger that he has never seen before, that he will remember and describe to others when he goes home. These things we should emphasize and so strongly as possible.

All that is quite true. People have the travel urge because of the inherent desire for change, and to see something different. The purveyor in any Canadian resort who lowers the flag of his country and puts up the flag of the United States cheapens himself even in the eyes of the visitors whose business he wants. He does more than that; he virtually sells his birthright for a mess of pottage.

### PLAYING HOOKEY

A recent study by the National Committee for School Health Research into absenteeism from schools reveals that there are forty-five medical and nine non-medical causes.

During the school year of 1946-47, a sample study of a representative number of city, town and rural schools was made. Since the schools under investigation reflected conditions in all areas—rich and poor, country and city—findings on such a broad base should be pretty reliable.

It is shown that urban pupils lose 11.6 school days per year and rural pupils 16.6, which means the staggering total of 28,000,000 pupil days per year in Canadian schools. When the study reveals that the common cold leads the medical causes, with respiratory infections a close second, it is undoubtedly correct.

On the other hand, when it reports that "lack of child help in the home" heads the reasons for non-medical absences, there seems to be something missing. No doubt home conditions have much to do with students missing classes, but on the other hand, is there the adult who, thinking back to his childhood, can deny that there were many conditions other than those in his home that led to his skipping classes—particularly on warm days, such as we have been enjoying this week?

If such a person is honest, he will admit that the influences of the home was generally felt in the woodshed after the absenteeism was discovered. Despite the continued application of that influence, there probably still are many sound non-medical reasons for absenteeism available to the youth of today between the ages of six and sixteen, of which the report took no notice.

cent of the drivers to blame for the accidents were men, the report says. I don't believe it. I think the women were just faster talkers! Woman, the report admits, are more dangerous when turning around, and that raises the question of how can anybody tell when a woman is turning around and when she isn't? Men were chief offenders in passing other cars recklessly on hills. That must mean uphill. Just watch any woman coming downhill!"

Husbands have been heard to say: "It was a mistake; I never should have taught her how to drive." Sad words, indeed.

### DAYLIGHT SAVING WAS OLD DEVICE

From St. Thomas Times-Journal  
Many people believe that Daylight Saving is a modern device, but it was practised by the early Romans. Thirteen hundred years ago, when "clocks" were sun dials, the Irish did the same sort of thing by having two sets of dials. In the summer time the hours were made 80 minutes long by the sun.

And Benjamin Franklin advocated a different time for summer and winter, more than 160 years ago.

It was a close race between the British and the Germans who would be first to take advantage of Daylight Saving for war purposes. The Germans put it into effect in April, 1916, and the British the following month. France fell into line soon after, and Italy the following year.

The Canadian Parliament as a whole was asked to vote on universal adoption of Daylight Saving in 1919, and defeated the proposal. The same thing happened in the United States. The result has been that any city, town or village can make its own decision and there is a great deal of confusion. Undoubtedly, however, Daylight Saving has made great headway in the urban areas during the past few years.

Many American newspapers referred to the death, the other day, of Robert Garland, 86-year-old Pittsburgh industrialist, and described him as "the father of Daylight Saving Time."

Mr. Garland may have been the originator of Daylight Saving in the United States, but he certainly was not "the father of Daylight Saving." According to American obituaries, Mr. Garland promoted Daylight Saving as a Federal wartime measure in 1917, but the pressure of the rural votes brought about its repeal two years later, since when it has been adopted by only 19 States.

The real "father of Daylight Saving" was William Willett, a London builder, who used to go horse-riding in Surrey before breakfast, and it disturbed him to see so many blinds drawn and the inmates apparently still asleep when the sun was shining brightly. With some parliamentary friends,

### WOMEN AT THE WHEEL

Why are women safer drivers of motor cars than men? The question really does take some answering, some analysis. One thing, as pedestrians, we do know, they will toot the old horn louder and more often than the average man; two hundred yards distant many women drivers seem to like to make a man on foot jump, or scare him to death. Dave Boone, in The New York Sun, has some of the answers:

"A national organization with time to devote to such things, reports that auto tests prove that women are safer drivers than men. It just seems that way. When folks see a woman driver coming they all get out of the way before anything can happen. In 1,300 accidents in one area, in which one driver was a man and the other a woman, 61 per

### WHEN BYTOWN DIED TO RISE AGAIN AS OTTAWA

By Percy Ghent in The Toronto Telegram

At rare intervals we spend an hour or so looking over a modest collection of Canadiana accumulated over the years. Today while doing so a number of letters addressed to John Reade, a Canadian poet who was a columnist and editorial writer for the Montreal Gazette for many years, were re-read with interest. Among them one from William McLennan, another poet and a friend of Reade, written at Tunbridge Wells, England, in September, 1902. It contains references to two places of Canadian association seen by McLennan. One of them was the Ambert Arms as seen on a drive near Sevenoaks—"with Sir Jeffrey on the sign, chin in hand and in full armor as we know him. His seat, 'Montreal' is not at great distance. . . ."

A tablet seen on the wall of a church at Frant, is the other reference. It was placed there as a memorial to Lt. Colonel John By, R.E., who died on the first of February, 1836, at the age of 53. And that brief mention of John By of the Royal Engineers, sent us on a hunt for further enlightenment about the man who founded Bytown, now the city of Ottawa, whence sounds the voice of Canada in national and international affairs.

#### A Rhyming Adieu

Ever since we stayed at the Bytown Inn on that first visit to Ottawa years ago, Bytown, the capital's original name, has had a curious appeal for us. More curious than appealing that interest, perhaps, for, compared with Ottawa, the name inspires no call to admiration for either its dignity or euphony. It did inspire some facetious comment in prose and verse in earlier days, we discovered. One merry jingle was written by the long-departed lawyer-poet, G. W. Wicksteed, QC, who for fifty years was law clerk of the Commons at Ottawa. It appears in a book before us, Wicksteed's Waifs in Verse, published in 1878, and this particular waif was at large, presumably, at the time Bytown died, rise again as Ottawa. Here it is:

"Bytown was built by By—but  
by—  
Both By and Bytown died, bye-bye  
By."

Thus briefly and with all of Ottawa's aid was summed up the stinking infant in its Bytown infancy. A squaw by all account in the forest primeval, it nills heard counts. Squawking with scawched roar above the thud of axes and

And amid all the plomander of the busiest man was John By, and tax collection, its first magistrate

lector, the soldier-engineer who built the Rideau Canal.

Born in England in 1783, John By first came to Canada, as a 17-year-old lieutenant of the Royal Engineers in 1800. If the biographical sketch appearing in Morgan's collection is correct, By, at that tender age was entrusted with the construction of a canal at the Cascades, above Montreal. Upon its completion he went to Quebec and directed the building of four martello towers outside the walls of that city. Quebec seems to have fascinated him. He made a scale model of the place which in London, later, aroused the admiration of the Duke of Wellington. His second voyage to Canada was in 1826 to construct the Rideau Canal; an enterprise for military convenience in case of another war with the United States, the Imperial government described it. It was while the Rideau was building that By erected the first huts for his workers on the site of Ottawa.

Returning to his homeland after the great canal project was completed and in full operation, By hoped for a knighthood and other tangible evidence of gratitude. Instead, he was censured severely for the alleged mismanagement of government funds, and is said to have died a broken-hearted man.

#### Victoria Made Choice

About the middle of last century the choice of a permanent capital for the Canadian was a lively issue. Montreal seemed reasonably sure of the honor until a fire of incendiary origin, following the sanctioning of the Rebellion Losses Bill in April, 1849, destroyed the parliament buildings there. There was a fire almost as disastrous at the Quebec building in 1854. For one session parliament assembled in the Toronto General Hospital at its pioneer location on King street west. Weary of this travelling debating society, public pressure was exerted to make the government stay put somewhere. Toronto, Kingston, Montreal, Hamilton, Quebec, Bytown, all set forth their claims to the honor. Bytown, among other points in its favor, stressed its remoteness from the frontier, with consequent safety in case of an attack on Canada from the south. Queen Victoria was requested to make the choice. It was Bytown. And since the Queen could do no wrong the selection, despite some opposition, was confirmed. On the first of January, 1858, Bytown, reborn as Ottawa, became the permanent capital.

In the United States the press agreed the choice was full of wisdom. Said one newspaper: "Ottawa will never be captured—the invaders would inevitably be lost in the woods trying to find it."

he promoted a Daylight Saving Bill in 1908, and despite the recommendation of a parliamentary committee of enquiry, the Bill was defeated. He died before it was adopted in 1916 as a wartime measure.

Now it is permanent and nation-wide, including the railroads, and there is a memorial to William Willett in the Surrey woods where he took his matutinal exercises on horseback and mused over the idea of having a different time of day in summer and in winter.

### A POSER FOR C.C.F.

By R. J. Deachman  
A part of the program of the C.C.F. is the nationalization of a number of different Canadian enterprises. Among these are the packing industry, banking and the manufacture of farm implements. We shall leave out the first from immediate consideration on the ground that the packing industry is tightly competitive and margins of profit are small.

We may also leave out the banks, they have ceased to be wicked—if they ever were. In the old days in the West there was a certain basic instability about the country. There were greater risks in those days, interest rates were necessarily higher than they are now. Times have changed and naturally the banks have changed with the times. They have a duty not only to their stockholders but to their customers. The best thing one can say about our banking institutions is that they serve well the needs of the nation and provide efficient and pleasant service for those who do business with them. Seldom, indeed, do they get in the hair of their customers.

But I wish Mr. Coldwell, or some of the experts on his staff, would tell us how they are going to nationalize the manufacture of agricultural implements. Their first task would be, I suppose, to buy out International Harvester Company which has factories in Hamilton and Chatham and branches in many different areas of the Dominion. Then it might undertake the nationalization of the Massey-Harris, Ltd. This would be no small task. The Massey-Harris company has substantial branches in the United States. It has two in Great Britain, one in Manchester and one in Kilmarnock, Scotland. This, if I am not mistaken, is also the home of "Johnny Walker." The Massey-Harris Company has a plant in France and branches doing business in a score of other countries. Will the C.C.F. take over these foreign branches? A government controlled monopoly which manufactures agricultural implements would then be operating in foreign countries.

It would have a difficult problem in these days of intensive nationalism. Foreign countries may be glad enough to have the Massey-Harris Company, but there are not many countries that would relish the idea of having foreign governments running some of its industries and actually making profits out of them.

There is another problem, the Massey-Harris Company extended its business in foreign countries in order to reduce its overhead, give full yearly employment and provide some compensation for those who put their money in the business. It went after foreign business and by so doing built a more solid basis for its Canadian business.

No one will deny the services of the Massey-Harris Company to Canadian agriculture. It has been a great factor in expanding our export trade. The reward of service in any democratic country is a further extension of opportunities for service. We reward men and corporations for their accomplishments but, under the new C.C.F. code we are to reverse that position. Industries which have been successful will have the fruits of their enterprise taken away from them, by order of the government, so that a new political party may try its prentice hand upon them. The C.C.F. will have to jettison this part of its program. The people of Canada are not yet foolish enough to accept it.

(Ed. Note: It was only on Monday last that M. J. Coldwell, C.C.F. leader, included among his party's nationalization planks the one to nationalize the farm implement industry.)

### COULD BE!

During the great flood, Noah's Ark sprang a leak. Noah told his dog to stick his nose in the hole. The hole grew larger and larger. Noah sent his wife to stand over the leak and stop the icy waters. The hole grew larger and larger. Noah, himself, went below and sat in the hole, which was now of immense proportions.

That is why a dog's nose is always cold, a woman's feet are always cold, and men stand with their backs to the fireplace.

## OTTAWA MODEL PLAN TO TOUR CANADA

This detailed model shows what Canada's capital will look like in the future. The scheme, which took Canadian town planners, architects and engineers three years to culminate, was designed to transfer Ottawa into an attractive city re-

flecting the Dominion's status and achievements as a nation. The model will be sent on a tour of the country. Here finishing touches are being applied to grounds of the parliament buildings.

—Central Press Canadian

## FOOLING THE PUBLIC

A unique hoax was perpetrated in the summer of 1924 in New York by two men known as Lester and DeVoe. Lester, who was wealthy, educated, and authoritative in speech, convinced his friends and acquaintances that he had obtained the mayor's approval to turn off Manhattan Island and turn it around to prevent its southern end from slipping into the harbor under the weight of the many new buildings.

So with DeVoe, Lester started to sign up laborers and award contracts for food and equipment which included 100-foot saws, 250-foot cars and even gigantic anchors to prevent the island from being carried out to sea should a storm arise before it could be reattached to the mainland. After eight weeks of preparation, all connected with the project were told to meet the following Monday morning at a certain spot so they could march together to the northern end of Manhattan where the work was to begin. As instructed, the hundreds of workmen and scores of contractors with their wagons loaded with the supplies and materials arrived. After waiting for hours, they learned that Lester and DeVoe had, for reasons of health, departed from the city.

## EXTREME DILUTION

Homeopathy, a method of medical treatment that flourished in the 19th century, had, as one of its tenets, the theory that the effect of a drug increased in proportion to its dilution. Thus, some of its practitioners were known to write prescriptions calling for dilutions that were equivalent to one drop of medicine in 200 gallons of water.

## HOUSING AND GOOD HEALTH

St. Catharines-Lincoln Health Unit

One of the important things in preventive medicine is the housing of people, and at the present time this is a very important question in Ontario, because houses seem so difficult to get. When people are crowded together, cleanliness and sanitation often becomes not only difficult but impossible, usually in direct proportion to the amount of overcrowding, and the intelligence of the householder. This may be the cause of certain illnesses, mental, physical, or perhaps both. The close proximity of many people facilitates the spread of certain diseases.

The Public Health Act for Ontario covers certain things in regard to housing, but a good municipal by-law is really necessary in order to outline the amount of space per person, lighting, ventilation and sanitary facilities.

Among other things most housing by-laws prohibit the use of basements for apartments, stipulate the height of walls, window space, and air space needed for sleeping quarters, all of which are pertinent to health and comfort. Many health authorities think that good housing is one of the most important requirements in regard to public health and at the present time one of the most difficult to look after. Section 78 of the Public Health Act reads: "Any condition existing in any locality which is or may become injurious or dangerous to health or prevent or hinder in any manner the suppression of disease shall be deemed a nuisance within the meaning of this act." and Section 79 (b) outlines what is a nuisance in regard to housing as "any house or part of a house so overcrowded as to be injurious or dangerous to health of the inmates or in which insufficient air space is allowed for each inmate to comply with the regulations." From these it will be seen

that unless the health of the inmates is involved health officials have not much authority in regard to housing.

If certain repairs or rented premises are found to be necessary to prevent a nuisance as defined by the Act, it is the duty of health officials to have the owner remedy the defect. This is especially true where this concerns sanitation. If the order is not carried out within a specified length of time, it is possible to have the nuisance alleviated by other means and the charges added to the taxes on the property.

All things in housing may not have a health significance, because many houses today need papering or painting, but if the defect involves the health of the inmates, then the inspector orders the work to be done. As a rule, most owners are only too willing to remedy nuisances when these are pointed out, but unfortunately there are some owners who resent any interference with their properties, regardless of how the condition may be affecting the health of those who are renting the property. They do not seem to realize that people should not live in unsanitary or overcrowded places, regardless of the rent. Where, in the opinion of the Medical Officer of Health, any premises are so situated, so constructed or so improperly lighted, or in any other respect of such a character, or in such a condition as to be unfit for human habitation or dangerous to health, he may cause such premises to be closed, and the house may be placed as "unfit for human habitation." In these cases the house must be vacated forthwith, the placard must stay in place until such time as the property has been put in proper shape, and no one may occupy the premises again without permission. Needless to say, in these times when it is so difficult to get any type of living quarters, we do not place a placard unless the owner will not attempt to put the place in shape.

The owner of every premises must supply to the occupier a sufficient quantity of water. We also try to make sure that all premises have proper sanitary conveniences, and if there is a sewer there should be a bathroom inside the house. There are, of course, many homes in the country which have no inside conveniences, and some of the out-houses are not kept very clean. Health officials try to make sure that these are clean and flyproof.

It has been well said that "half the people do not know how the other half live." This is perfectly true in regard to housing, and it would open the eyes of many people if they could see the squalor and filth in some of the premises which public health officials have to visit. If anyone knows of unsanitary housing conditions this should be reported to the Medical Officer of Health, who always appreciates information of this kind. I can promise you that he will do his share in doing away with unsanitary housing conditions which may affect the health of the citizens.

## AIRLINE TELEVISION

Passengers aboard an airliner coming in to the New York Municipal Airport one day in 1936 were the first to enjoy the rare experience of having an outside as well as an inside view of their landing. As their plane approached, it was picked up by a television camera in the control tower and the picture was received on a television screen in the airliner.

## Canada Never Held Treasures, McNaughton

Gen. A. G. L. McNaughton, permanent delegate to the United Nations, above, who rejected as "false" Poland's statement in the U.N. that the Dominion agreed to take custody of disputed Polish art treasures. He was replying to an attack made on the Dominion by Polish delegate, Julius Katzschy. The art treasures sent to Canada in 1945 to escape Nazi seizure were never in possession of the Canadian government, Gen. McNaughton explained. Valued at several million dollars, most of the art treasures are held in the Quebec provincial museum under orders of Premier Maurice Duplessis. Four chests of them were returned to Poland. Right are missing.

## Get set for carefree Summer driving!

### see your Ford of Canada Dealer

Winter weary cars and trucks can take a costly beating when hot weather comes. Don't risk a big repair bill! It's still not too late to get this thorough Tune-Up that saves you time—saves you future

#### HERE'S THE TUNE-UP

- Complete, scientific engine tune-up.
- All wheels removed and brake linings inspected.
- Brake adjustment.
- Front wheel bearings cleaned and repacked.
- Oil filter cartridge replaced, if needed.
- Oil-bath air cleaner cleaned and refilled.

#### YOUR CAR NEEDS

- Shock absorbers adjusted and fluid added, if needed.
- Cooling system drained—all connections tightened.
- Chassis lubricated completely.
- Engine, transmission and differential flushed and refilled with factory recommended summer lubricants.

#### BETTER SERVICE 4 WAYS

- 1. **Super Service Men**—trained in Ford of Canada Service Schools save you time and money because they know your car or truck best—do the job right.
- 2. **Factory-Approved Equipment**—is specially designed to give your car or truck more efficient service. It saves you dollars by assuring precision work, thoroughly checked.
- 3. **Factory-Approved Methods**—are up to date and are right. They're planned and developed by service engineers to do every job better and in less time, to save you money.
- 4. **Running Ford Parts**—for all Ford of Canada products are made right, to fit right, and last longer. They're guaranteed! They save you money by giving more miles of service.

### CLEAN UP AIDS

to protect and beautify your car

- RADIATOR KIT**—Ford Cooling System Cleaner helps loosen and remove rust, scale and corrosion from radiators. After Ford Rust Inhibitor is added, cooling system operating efficiently.
- CHROME and POLISH**—Ford Chrome Cleaner quickly and easily removes rust and corrosion from all chrome surfaces. Genuine Ford Body Polish is a fast, easy-working cleaner and polish which restores a brilliant lustre.
- LIQUID GLAZE**—Liquid Glaze Cleaner and Liquid Glaze Sealer provides a brilliant long-lasting lustre. Restores your car's original beauty. Easy to apply, cleans and protects against traffic grime, sun rays, dew, fog stains and salt air.

### USE GENUINE FORD ACCESSORIES TO INCREASE YOUR DRIVING PLEASURE

- CUSTOM RADIOS**—'49 Model Ford of Canada cars, featuring Top Case! America's new luxury car—selective tone control.
- EXTERIOR VISION**—Adds greatly to your motoring pleasure—increases your safety. Protects your eyes from sun rays and snow.
- SEAT COVERS**—For all Ford of Canada products—tailored to fit right—look smarter—last longer. Exclusive, designed in rayon, plasticized fibre and 100% nylon—easier to clean and keep clean.

**2,446 Green trucks and cars  
bring more and better Telephone Service**

IN THE PAST twelve months these familiar green trucks and cars have travelled over 20 million miles to help provide you with good telephone service and to help in the big expansion and improvement program which is making service better and more useful all the time.

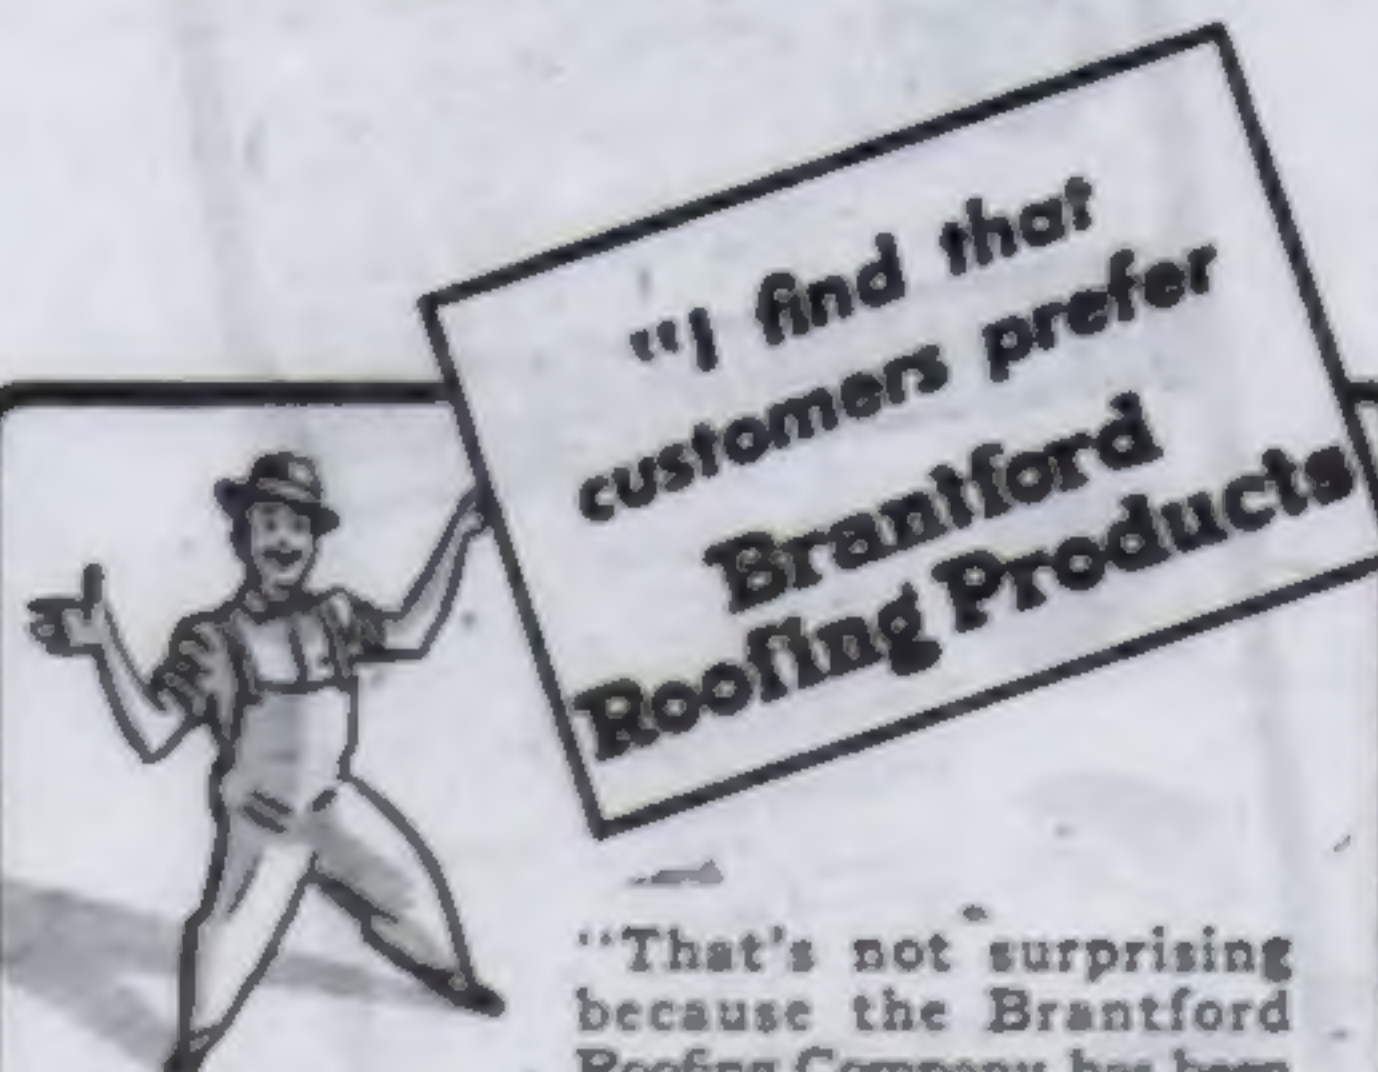

Constantly improving service means that today, few things give you so much real value at such low cost as your telephone.

Like everything else, cars and trucks have gone up in price, 30% in three years! Yet, up to now, despite higher costs on all sides, there has been no increase in the basic telephone rates established 22 years ago.

To-day's expansion program is breaking all records, but there are still orders we haven't been able to fill. We will keep right on working and building to make your telephone service a bigger bargain than ever — to continue to provide more and better service at the lowest possible cost.

## Tells of F.B.I. Gift to Reds' Defence

—Central Press Canadian  
Photographer Angela Calomiris is shown after telling a crowded courtroom in New York that the United States F.B.I. not only paid her expenses while she acted as a counter-agent, but gave her \$50 to toss into the "defense fund" for the 11 top Reds against whom she is now giving testimony. This surprise testimony drew a howl from the crowded courtroom. It was the fourth straight day that Miss Calomiris has testified.

## HILLMAN MINX CAR PRICES ARE REDUCED

Toronto, April 27th. Rootes Motors, Ltd., today announced a \$55.00 reduction in the price of the Hillman Minx Sedan. Effective immediately across Canada, the price cut is in line with Rootes Motors' policy of keeping the cost of their products as low as possible to Canadian buyers. Manufactured in England by the Rootes Group, the Hillman Minx Sedan is marketed in Canada by a coast-to-coast dealer and service organization.

## IS NOT CANDIDATE FOR SOCIAL CREDIT

The Independent was informed Wednesday morning of the startling resignation of Howard Prentice as candidate for the Social Credit Party. Mr. Prentice declared that he will contest the Dominion Election in Lincoln County on June 27 as an Independent candidate.

He stated that he was standing as an Independent, due to a startling turn of events, and further intimated that when his position was made known it would create a furor.

J. R. Harriott, President of the Social Credit Association of Lincoln County, has been advised of Mr. Prentice's intention, and was assured that there is no ill feeling in any way connected with this decision to enter the field in the forthcoming election as an Independent candidate.

The challenge which Mr. Prentice issued to the C.C.P. candidate remains unchanged despite this sudden turn of events, and Mr. Prentice stated that he is prepared for the debate on the challenge. This debate has now been scheduled for May 11 in the Queensway Hotel, St. Catharines. The problems which face the people of Canada to-day is the widely discussed topic to be dealt with.

## "THE SUN COMES UP" IS STIRRING COLOR FILM

Jeanette MacDonald, whose previous screen work has been confined to romantic singing roles, is given opportunity not only to sing but to essay her first dramatic role in "The Sun Comes Up" which comes to the Roxy on Friday, May 20th. In the story, beautifully photographed in Technicolor in the Santa Cruz mountains, Miss MacDonald is seen as Helen Winter a concert singer embittered by a double tragedy. She has lost her husband in the war and now loses her young son when he is killed in an automobile accident. Resuming her singing career, Helen seeks solitude in a mountain retreat, reluctantly taking with her the collie dog (Lassie) who had innocently been the cause of her son's death. Embittered, Helen rebuffs the friendly overtures of young Jerry (Claude Jarman, Jr.), a boy from a nearby orphanage who comes daily to do her chores. It is only after Jerry is narrowly saved from death by the courageous collie when the orphanage is set on fire that Helen realizes what the boy means to her.

Young Jarman fulfills all the expectations he aroused after his Academy Award-winning role in "The Yearling" and his scenes with the redoubtable Lassie cannot fail to move youngsters and adults alike. The distinguished acting portrayals, discerning direction and fine production all add up to telling screen achievement. "The Sun Comes Up" is one of the year's best.

Learn the rules of right of way, but remember, the other fellow may still not know his. Better to give way than to be dead right.

# IS MY HUSBAND SMART!

WE SAVED REAL MONEY ON LAST YEAR'S COAL BILL THROUGH THE 'blue coal' BUDGET PLAN

Yes, you can fill your bin with 'blue coal' this summer by paying monthly as you do for telephone service

We make it as simple as that! With us you can now pay for 'blue coal' heat the way you pay for telephone bills—on easy, spread-out monthly payments.

You'll see that when you budget coal bills, too, your whole household budget runs smoothly. You get rid of big bills in winter when expenses are at their highest. You're protected against price rises because you'll have a supply on hand in your basement, bought at today's prices.

What's more, when you can get the world's finest anthracite—"blue coal"—on liberal terms, it's more of a "buy" than ever. All of it is clean, square-fractured hard coal freshly mined at deep levels... correctly sized and processed for most efficient burning.

Phone us today for complete information about our 'blue coal' Budget Plan. There is no obligation to buy.

'blue coal' IS THE QUALITY FUEL MINED DEEP TO GIVE MORE HEAT

"We Liberals have dedicated ourselves to maintaining a high level of employment and income, because that means a high and widely distributed standard of living for our people."

Prime Minister Louis St. Laurent

## You share— every Canadian shares— in the greater Opportunity Prosperity Security

brought about by  
constructive Liberal policies

Liberals mean what they say. Look over the record of the last five years—the most impressive period of prosperity and growth in our history. It shows that Liberal performance exceeds Liberal promises.

Under Liberal policies, Canadians can be confident that this forward march will continue—that Liberal promises will again be carried out.

### More Jobs—More Income

More people are working than in any previous peacetime period—nearly a million more than in 1939. National income is three times as high as in 1939, is more widely distributed than ever before.

### More Savings

People have nearly 2½ million more bank accounts than before the war. They have put aside more than 4 billion dollars in personal bank savings.

### More Production and Trade

The products of our farms and forests, factories and mines and fisheries are worth twice as much as ten years ago. And Canada's exports are more than four times greater. Canada is the world's third largest trading nation.

### More Family Allowances

The federal government has, since 1945, invested one billion dollars in Canada's children. Four million boys and girls in 1½ million families are receiving a better start in life. Benefits are being extended this year.

### More Old Age Pensions

Federal payments have been twice increased since 1945. The new pension basis is now increased to \$40.00 a month, providing greater comfort and security for the aged and blind.

### National Health

Health grants to provinces are helping to build a stronger nation. Many projects are already under way: nine province-wide health surveys; 13,000 additional hospital beds; training for health specialists; increased health services and research.

### Aid to Home Builders

Close to 300,000 dwellings have been built since the war. More homes have been built in Canada, in proportion to population, than in any other country, and more were built last year than any time in our history.

### And lowered taxes as well!

By careful administration the Liberal government has established these records and been able at the same time to cut the national debt by 1,625 million dollars. And every budget since 1945 has announced lowered rates of taxation.

## IT WON'T BE LONG NOW!

Now that May is on its way, it won't be long before the school vacations begin for the summer months. Scenes like this will be duplicated all over the country. These boys can't get out of school too quickly when the long holidays start and they can fish, swim and loaf as they please.

## CHILDREN'S AID SOCIETY A COMMUNITY RESPONSIBILITY

This is one of a series of articles submitted by The Children's Aid Society of the City of St. Catharines and the County of Lincoln. Our purpose is to further community understanding and interest in all programs dedicated to raising the standards of child and family life in our midst.

### WHAT SHALL I DO?

A few weeks ago a tired, thin young woman came to the Children's Aid office and asked to see one of the social workers. Hardly had she sat down in the privacy of the office before she broke into tears and virtually poured her heart out.

Several minutes passed before she was able to gain sufficient control of her emotions to the point where she could converse freely with the worker. Then, slowly and painfully she told of coming to Canada as a war-bride from her home in the Scottish Highlands some four years ago. She had met her husband overseas while he was in the services, they had married and a year after his return to Canada she arrived along with her son Michael, now three years old.

The housing shortage, the newness of Canada and its people, a husband finding it very difficult to adjust to the role of a civilian and the head of a home all added to the early confusion and strain upon their marriage.

Living in two rooms, then one room, and then having to move because the little boy was "too active" according to the landlord, soon found this young woman and her husband in the depths of despair.

Now, after some four years of wedded life, with two children and a husband who several weeks ago deserted, the Children's Aid Society found this young mother at the point where taking her own life was beginning to look like the easy way out.

It wasn't too bad for the first few weeks after her husband left. The baker and the milkman were quite considerate. They left bread and milk very day on credit, you might say. Even the grocer at the corner did his best to co-operate. Now, with her credit having run out; two months rent to pay; no clothing for the children and no money for proper food for them she said she had to turn to someone for help and guidance. So at the suggestion of a neighbour she had come to the Children's Aid office with more than a little amount of fear and trepidation. For wasn't it the Children's Aid Society that took children away from their parents permanently?

The Social Worker was quick to assure her that the Children's Aid Society's main service was to keep her and other families like hers, together. For the love of a foster mother can never take the place of a real mother to her child.

By this time the worker had won the confidence of this little woman and she told of the dreams she and her husband had had for their future, a good job, a nice house, picnics in the summer with their children, friends in in the evening and all the other things that so many of us take for granted.

In addition to winning her confidence, the worker in this first interview was able to arrange for some temporary assistance in terms of food and clothing through checking until finally the husband was located in a nearby city.

He had found work only the week before and had been ashamed to return to his wife a failure. At the end of the first week after leaving his wife he had found, nothing, and rather than write home to tell her of his lack of success, he decided to keep on trying and the longer he went the harder it became to write to his wife. Finally he decided he wouldn't return at all because he had let her down.

Through all this he had overlooked the fact that his wife couldn't carry on indefinitely on the little bit of money he had left her, together with her Family Allow-

ance for the children. And also the fact that to his wife, their marriage was a mutual give and take experience where they had to share their problems and successes.

Our story ends here, for husband and wife are now reunited and they continue to bring their problems to the Social Worker who helps them to solve things for themselves and all in all a family has been saved.

Without a Children's Aid Society with its interest in strengthening one of the local service clubs. Then

followed several days of careful family ties, would you care to predict what the end of this story might have been?

## TERRORIZED BIG CITY

No criminal ever caused such widespread and prolonged fear as the killer who terrorized Cleveland between 1933 and 1935. During this period he murdered seven men and five women, dismembered their

bodies and buried the parts in different places in or near Kingsway Run, a gully in the city. Only three of the victims could be identified. Nearly 6,000 persons were questioned and one man confessed to one killing, but denied any knowledge of the others. His statement was believed and, later, he died in his cell. Cleveland spent \$100,000 on its search for the murderer, who was thought to be an insane surgeon, yet he was never found and his identity is still a mystery.

## STONE CREEK TELEPHONE USERS"

We appreciate the co-operation you have shown during the period of change-over from "Manual" to "Dial" operation of Stoney Creek's telephone system.

The equipment is working very efficiently. You can help keep the service up to its high standard by remembering these three points:

1. Before placing a call, always make sure of the number by first looking it up in the new supplementary directory.
2. Use all possible care when dialing—refer to Page 3 of your present Directory.
3. Retain your present directory for listings other than Winona and Stoney Creek.

The introduction of this new system is part of our continuing development program designed so that you may have more and better telephone service at the lowest possible cost. It means greater telephone value to every user.

## Strictly Canadian by Claire Wallace

There are two things we do, per-  
haps hundreds of times a day, yet  
 seldom consider in terms of good  
manners—standing up and sitting  
down.

The way a man or woman rises  
from a chair can make them look  
young or old. If you get a grip on  
the arms or seat of a chair and  
then ease yourself painfully from  
it, you are going to look old, but if  
you shift your weight from seat to  
feet gracefully, without any heave,  
be by the arms, you can rise and  
drop years from your age at the  
same time.

The trick of rising from a chair  
is to have the feet placed together,  
pointing straight out from the  
body, and one slightly behind the  
other, with the toes of one foot  
opposite the instep of the other.  
This results in one foot acting as  
a lever to get you up, and the  
other as a balance to keep you  
there. The feet in this same po-

sition will facilitate sitting down  
with grace, too.

When seated, it is important not  
to lounge or sprawl, nor is it pleas-  
ant to see anyone perched on the  
edge of a chair. Women and girls  
are particularly careless when  
seated on Chesterfields about keep-  
ing the skirt neatly down over  
their knees and the feet together.  
It used to be inexcusable for a wo-  
man to cross her knees when seated  
on any chair, but now is permis-  
sible if it can be done gracefully.  
I have never seen it done grace-  
fully when a woman is seated on a  
low Chesterfield or chair.

If a woman is crossing her knees,  
the underfoot should slant straight  
out from the body; the one crossed-  
over should point the toe down and  
be held as straight out from the  
body as possible. Never thrust out  
the foot or turn up the toes, when  
the knees are crossed.

On streetcars men are the great-  
est offenders in taking up more  
than their share of room.

Sit straight, stand straight, is a  
good rule. Good posture is worth  
money to any man and adds glam-  
our to a woman because it makes  
them look more important, poised  
and capable of handling any situ-  
ation.

If you want to test your balance,  
place your weight on the toes of  
one foot and raise your other foot  
from the ground several inches,  
either forwards or backwards. Try  
it, and if you don't fall flat on your  
face, you are wonderful—and  
graceful, too.

### Questions and Answers

Q I'm from England and am  
constantly surprised at the number  
of personal questions Canadians  
ask me and each other.

A It is meant in a kindly, friend-  
ly way, but is inexcusable. If the  
questions are of an intimate nature.

Q When I was with a friend the  
other day, a third woman we knew  
stopped to talk, then invited me to  
come and see her but didn't men-  
tion my friend going, too. Wasn't  
that rather rude?

A Decidedly so, to tender an in-  
vitation to one of two women and  
leave out the other.

Q How long before a wedding  
should ushers be at the church?

A For a large wedding, an hour  
before. For a small wedding, half-  
an-hour is usually enough.

Q Is it ever polite to refuse to  
walk with an usher to your seat,  
at a wedding? I am tall and hate to  
walk with a short usher, but it al-  
ways seems to be my fate.

A Can't very well refuse. Unusu-  
ally the tall ushers try to escort the  
tall women guests but it doesn't  
always work out that way.

Q Do people mean it when they  
say "No flowers, please" is a  
funeral notice?

A They mean it and the wish  
should be observed.

Q Does one ever introduce one-  
self? If so, how?

A Yes, indeed. At a tea or gath-  
ering at the home of a friend, or  
to the mother or relative of a  
friend who doesn't know you—  
there are many occasions when one  
introduces oneself. Simply say:  
"Mrs. Doe, may I introduce my-  
self? I am Maryjane Smith."

Q Is there handkerchief eti-  
quette?

A Yes; a clean handkerchief, us-  
ing it as unobtrusively as possible  
and using it with one hand only.

Q I have a friend who always  
wants to try on my hats. I'd rather  
she wouldn't. What can I do about  
it?

A She should not do so, without  
permission, preferably not at all.  
Perhaps you can politely forestall  
her by saying "I don't think it  
would fit you," and waiting it  
gently but firmly out of her reach.

### D.E.A. PRESIDENT

Toronto.

### KIDNAP PRINCESS

Lost and in a daze, a strange  
girl was found and taken in by a  
wealthy family in Almondsbury,  
England, on the night of April 3,  
1817. Her identity soon became  
Britain's number one mystery as  
she wore Oriental dress, had Asi-  
atic mannerisms and spoke an odd  
language that baffled the foremost  
linguists. Then a sailor claimed he  
knew her language, talked to the  
girl and translated her story. She  
was "Princess Carole of Jovana

who had been kidnapped from this  
island off Sumatra, sold to pirates  
and recently shipwrecked on the  
coast of England." Whereupon she  
was limited by society. Finally,  
through a newspaper story which  
chanced to describe a peculiar scar  
on her back, she was recognized  
and exposed by a woman who once  
knew her. The girl was Mary  
Baker of Devonshire and she had,  
aided by the sailor, perpetrated the  
hoax for a lark. Britons long  
wondered how this servant girl had  
been able to dupe learned men for  
nearly a year.

## THERE ARE DEFINITE REASONS WHY THE PRICE OF MILK HAS ADVANCED

Because of increased costs of farm equipment and labour, the average  
milk producer's returns in the Hamilton area have not been sufficient  
to cover his net cost. Under these circumstances, he realizes no income  
whatever on this investment, but actually operates at a loss.

During the last year, the cost of dairy farm equipment has increased  
159%, while farm labour costs have increased 16.5%. Yet, rates of  
pay for farm labour are still far below rates paid labour in industry.  
If farm workers were paid wages comparable to industrial workers, the  
cost of milk would be considerably higher than it is at present.

The increases in the retail prices of milk in Hamilton now established  
amount to less than 5% to the farmer, and are the same as have prevailed  
in Toronto and the Niagara Peninsula for the last two months. Even  
at the increased per quart price, milk continues to be by far your best  
food buy.

## PETITION PLUGS

as Alison did not have them. Mr. R. C. Bourne supported Mr. Theal in his views and cited the case of a man who threatened to take his business to Beamsville if meters were installed here. He felt that the problem here was nothing in comparison to that in Toronto where it is often necessary to walk some ten blocks from parking place to destination.

Ex-Reeve Hewitt supported the above views and read a quotation from the Globe and Mail to the effect that the Town of Haverhill was to remove the meters after their trial period because they had proved unsatisfactory.

Ex-Councillor Bonham now took the floor to express his views on the subject. "This town," said Mr. Bonham, "derives its revenue from the people living in a surrounding area of about five miles. Why then should we penalize these people who come here to spend their money?"

Mr. Bonham's second point was that if the present bylaw was properly enforced there would be no need for the meters. Mr. Bonham stated that he had allegedly watched the present law being flagrantly violated right in front of local of-

ficers who made no move to enforce the law.

His third point was that the town is over-policed from a financial standpoint. He stated that he had been told by former police constable Seymour that he had been approached by a member of the council to police the proposed meters and the school crossings.

Mr. Theal then quoted several further instances of alleged non-enforcement of the bylaw in question.

Ex-Mayor Bull said that he did not wish to see the town return to the days of the old toll gates by levying a tax on citizens coming to do business in Grimsby. He felt that efficient enforcement of the present bylaw would eliminate the need for the meters.

Mr. C. D. Millyard made the suggestion that the bylaw now in force be reduced to a one hour minimum and enforced with the hope of achieving the same result as with the meters.

The discussion was here interrupted until the question was again raised later in the meeting. Councillor Grossmith at this time suggested that the whole question be held over until January when a vote could be taken.

The Lincoln County Branch of the Canadian Cancer Society went over their \$10,000 objective in their recent campaign. In Grimsby the Junior Chamber of Commerce, under extent of \$425.00. In the above photo, President of the Jaycees, presents the cheque to Tomer Society.

Mr. Levine suggested that the meters concerned only the Main Street residents and merchants and that hence they should have the major voice in the matter. He voiced his opposition to them.

Councillor Scott asked when the petition was circulated and by whom.

Here Mr. Bonham leaped to his feet and stated that the petition was obviously not a forgery and hence by who or when it was circulated was none of Mr. Scott's business. In reply to Mr. Levine, Mr. Bonham said that many besides the merchants were interested because they would have to pay the fines and tolls.

Mr. Bonham supported Mr. Grossmith's suggestion that a vote be taken in January. It was Mr. Bonham's fear that the revenue would be used under bad management to pay extra personnel to police the meters. The present force he felt was already overrated and inefficient and that it was on the suggestion of this force that the meter question was opened presumably because they wished to avoid the work of enforcing the by-law.

Councillor Constable at this point came to the defense of the police and suggested that the question be laid over for the present. He favored the idea of meters for regulation purposes but thought that the proposed one hour limit might be sufficient. Enforcement of this limit he felt would be difficult because it would mean marking the cars which is against the provincial law.

Mr. Bonham again accused the present police force of insufficient enforcement of the bylaw and stated the name of Mr. Geo. Seymour in connection with his earlier charge concerning the policing of the meters.

Mr. Bull reminded the council that if meters were installed, there would still be a great number of buses stopping in town without charge, and in a space reserved especially for them. If other motorists park in that space to do business in town they are fined.

At this point a motion was introduced by Price and Grossmith that the present bylaw be altered to a one hour limit. This was voted on over the arguments of Mr. Scott, who threatened to leave the table and the vote was registered as follows—

For—Lothian, Grossmith, Henderson, Price and Lewis, who voted to break the tie.  
Against—Scott, Braid, Brown, Constable.

Mr. Bonham wanted to know whether the parking meter question would go to the public in the next election. The Mayor said that it was still an open issue and Mr. Lothian pointed out that the council could make a decision at a later date.

The school district question again came under discussion at this meeting. Mr. T. L. Dymond appeared on behalf of the local school board to express the feelings of the board in regard to this question. He stated that the plan was inherently sound and would provide better educational facilities for Grimsby with little or no increase in cost. On this he said the board had based its decision.

Considerable discussion followed during which Beamsville, North Grimsby, Clinton and W. Louth were all reported favorable to the plan. The following motions were passed.

Price-Constable: That this council at the request of the Grimsby Board of Education ask the county council to set up or establish a High School District or Districts including this municipality and the following, Beamsville, N. Grimsby Twp., Clinton Twp., and W. Louth Twp., as divided by the council of Louth at the time of entry into the said High School district.

That this council on the recommendation of the Board of Education request county council to dissolve or discontinue the High School District of Grimsby municipality in order to make way for the formation of a larger High School District to include Grimsby municipality, N. Grimsby, Beamsville, Clinton and the west half of Louth.

On a motion by Scott and Lothian the new accident insurance policy to cover the town employees which was presented by White and Jarvis was accepted.

The auditor's report was presented by R. B. Jocelyn, town auditor and was passed on a motion by Lothian and Scott. Mr. Jocelyn was commended for his excellent work.

A motion in regard to the water mains on the new survey was introduced by Brown and Grossmith. Under the Local Improvements Act the mains had been installed at the expense of the residents. This motion proposed that future maintenance of the main should be assumed by the water commission as was the practice in the past, on a basis of 75% or 85% depending on the location of the property on the survey. Also the majority of the cost for any future mains to be erected would be born by the commission. This was passed with one vote to the contrary.

A letter was received from Mary E. Croft in regard to a fence erected in the Stuart Park Survey which left her property and another without an entrance. Mr. Bill MacFarlane appeared on behalf of the fence. He was assured by council that the matter would be handled in the usual way.

A letter was received also from the Lincoln County Health Unit in regard to the appointment of an M.O.H. to handle indigent health cases. A further communication from this unit about a sewer broken during construction work next to the local Hydro office was passed on since it was felt that this was a matter to be settled by the parties concerned.

Notification was received from the Niagara District Funeral Service Association that the fee for indigent funerals was now adjusted to the sum of 100 dollars (Mar. 14/49) exclusive of cemetery costs and disbursements.

On a motion by Lothian and Grossmith the 1947 business assessment for the White Canadian Aircraft was written off since the firm was not in business.

Mr. A. Henderson was issued with a cheque in payment of accident accounts for Feb. 5/49.

Previous motions on the cost of living bonus for the town employees were rescinded with effect May 21, 1949, on a motion by Lothian and Braid.

Police salaries effective May 1, 1949, as follows were passed—  
Chief James—\$2100 per year.  
Const. Davis—\$100 per year increase as of June 10, 1949.

Const. Rathbone—\$100 per year increase after six months.

Salaries of town employees were approved.  
Frank Little—\$40.00 per month.  
M. Lawry—\$38.40 per week.  
A. Hails—\$35.00 per week.  
Dan—\$35.00 per week.  
C. Wilkins—\$38.00 per week.  
C. Walker—\$35.00 per week.

Town office staff salaries as follows:—  
A. B. Bourne—\$2500 per year.  
F. Jewson—\$1900 per year.  
J. Byford—\$20.00 per week as of May 1, 1949.

On a motion by Price and Constable, W. Grossmith was appointed the Grimsby representative for the V.O.N. with mileage to be paid at the rate of ten cents per mile when attending out-of-town meetings monthly.

Joint Fire Committee account amounting to \$388.30 passed and paid, as were the general voucher

accounts amounting to \$4439.53. A motion by Constable and Anderson that bicycles be taxed at the rate of \$1.00 per year was filed.

Relief accounts for April, 1949, amounting to \$103.26 were passed and paid.

Building Permits were granted to W. Mokry, H. Fairweather, E. A. Fochia, P. Prudhomme, H. Fox, and the United Distillers.

Alteration permits were granted to Gordon Shafer and A. F. McIntyre and a permit was granted to Dunham Paint to erect a sign at 9 Main East.

A grant of \$140 was made to the Canadian Legion, West Lincoln Branch to cover taxes already paid.

The engineers report on the Hanish Survey was passed on to the planning board for their construction.

The following reports were passed:

Water for April.  
Meters—April, 1,38,737,000 gals.;  
March, 128,999,000 gals.  
April Pumping, 9,738,000 gals.  
Average per day, 324,800 gals.  
Biggest day, April 22, 562,000 gals.  
Smallest day, April 10, 283,600 gals.

Decrease from April, 1948, 1,500,000 gals.

Decrease average per day from April, 1948, 50,200 gals.

Gas Engines—nil.

Lake level up three inches over March, 1949.

Township:

April, 1949 — East, 1,154,000; West, 283,000. Total 1,437,000.

March, 1949 — East, 1,047,000; West, 322,000. Total 1,369,000.

April, 1948 — East, 1,145,000; West, 310,000. Total 1,455,000.

Power Bills:

April 1949—\$85.10, demand 460.

March 1949—\$98.72, demand 460.

April 1948—\$131.77, demand 460.

Police Report

Charges—3 criminal, 3 under liquor control act, 4 drunks  
4 accidents (all light), 12 traffic offenses, 6 complaints investigated satisfactory, 1 premises insecure, 6 enquiries for other depts., 1 theft under investigation. Four youths were warned for entering an empty dwelling. Total fines, \$228.00.

## BLOSSOM BALL DRAWS SELLOUT CROWD

The Optimist Blossom Time Ball was an outstanding success, and although the treasurer has not given a report, the Boys' Work Committee should be bolstered by approximately two hundred dollars.

The Oak Room of the Village Inn was packed, as seven girls contested for the Blossom Queen title. Tension mounted during the evening, and the judges comprised of Mr. and Mrs. E. R. Weaver, Hamilton, Monica Muggan of Toronto, and Mr. and Mrs. Eddie Mook of Hamilton, finally gave their decision at midnight, naming Ellen McClenahan of Burlington, as the new Blossom Queen.

Miss Canada was a feature of the evening, joining Paul Page and his orchestra to entertain the gala crowd. Willard King of CHML was master of ceremonies, and introduced Gordon Metcalfe, President of the Optimist Club, who welcomed the many Optimists and other guests in attendance.

The Inn was bedecked in lilac blossom and what apple blossom the decorating committee could still locate. The setting provided a perfect background for the crowning of the Blossom Queen which ceremony was done by Miss Canada. All the girls received awards on behalf of the Optimist Club, while Coles' Florist's kind contribution of flowers was much appreciated by the budgeting Optimists.

And so Blossom Time is over for another year. A best wave three things into a bit of a turmoil, forcing the blossoms to advance before schedule, however the entire affair appears to have been a great success, and it is to be hoped that it will continue to grow year by year.

## ST. JOHN'S W.M.S.

The May meeting of the W.M.S. of St. John's Presbyterian Church was held on Thursday afternoon at the home of Mrs. C. Mason, Fairview Avenue.

The program for the afternoon was in charge of Mrs. J. P. McLeod and Mrs. J. H. Dick, with Mrs. W. Burke, the president, in the chair. Others taking part were Mrs. A. Ryana, Mrs. F. Reiss, Mrs. A. Stevenson and Mrs. Jas. Wray.

Members were named to take part in the Sectional Meeting at Beamsville on May 26th.

At the close of the meeting, lunch was served by the hostess and her committee.

## TO BE A JUNE BRIDAL COUPLE

On June 4, the wedding is taking place in St. Andrew's Anglican Church, Grimsby, of Audrey Marie, daughter of Mr. and Mrs. Fred Taylor, Grimsby, and Mr. Donald W. Dipper, also of Grimsby, son of Mr. and Mrs. A. W. Dipper.

## REBEKAH LODGE

On Monday evening the officers of the Rebekah Lodge, No. 26, entertained to dinner at the Village Inn, Sister Aetna Burnstead, President of the Rebekah Assembly of Ontario. Other

distinguished guests were Sis. Mildred McKee of Dundas, Assembly Conductor, and Sis. Owen Hall, District Deputy President of Oakville.

After dinner the party journeyed to Beamsville for a joint meeting with Oak Leaf Rebekah Lodge, where the Whittby Benevolent Lodge conferred the Degree on a class of candidates. Sister Jean Burch of St. Catharines, Warden of the Rebekah Assembly, and Sister Lillian Correll, D.D.P. of District No. 27, Whittby, being among the honoured guests.

Alexina Lodge conducted the closing ceremonies under the leadership of N.G. Sister Helen Falloon.

At the close of Lodge, refreshments were served by a joint committee from both Lodges. Visitors were present from Hamilton, Oakville, Whittby, Dundas, St. Catharines and Grimsby.

About 200 brothers and sisters were in attendance at the ceremonies in Beamsville, and gifts and flowers were presented to all the notable visitors.

On Sunday evening, May 15th, a group of twenty-one Alexina sisters attended divine service at Grimsby Baptist Church.

## COMING EVENTS

The Winona Women's Institute are sponsoring films on "Frozen Foods" put on by the Department of Agriculture. They are to be held at the Legion Hall, Winona. Wednesday, May 25th, at 8 p.m. sharp. Everyone welcome.

## WINONA W.I.

Two films showing the preparation of food for freezing will be featured at a community meeting sponsored by the Winona Women's Institute to be held in the Legion Hall at Winona on Wednesday, May 25, punctually at 8 p.m., Daylight time. A cordial invitation is extended to all men and women of the community.

Throughout Ontario, as frozen food locker plants become more common, quick freezing of foods is increasing rapidly. The growing popularity of quick freezing is not difficult to explain. It is the simplest and fastest method of preserving many foods. Only a few simple requirements must be met to insure the homemaker of high quality frozen product. And when reliable directions are followed, frozen foods will closely resemble fresh food in appearance, flavour, texture and food value. Frozen strawberries served in January can rival the delicious berries of June. June asparagus and July raspberries with gardenlike freshness, add zest to winter meals.

Films showing the simple methods of freezing fruits, vegetables, meat, fish and poultry will be explained by Miss Anne Lawson, of the Women's Institute Branch and Home Economics Service, Ontario Department of Agriculture. A display of wrapping materials for Frozen Foods will be arranged and bulletins for home use will be distributed. Come and bring your friends.

## UNION EVENING SERVICE

Further co-operation on the part of the Baptist, Presbyterian and United Churches in Town.

So successful and helpful were the Union Holy Week Service carried on by the three churches that a further co-operative move has been inaugurated.

Commencing Sunday, May 22nd, and continuing through Sunday, June 26th, the three churches will hold Union Sunday Evening Services in the three churches in order as follows: May 22nd, United Church; May 29th, Presbyterian; June 5th, Baptist; June 12th, United; June 19, Presbyterian; and June 26th, Baptist. One of the three local ministers will be the speaker at each of the services and it is hoped that the members of the three congregations will support each of the meetings by attending themselves and inviting others to attend as well.

These are real Union Services for all three congregations and not for the church in which the particular service happens to be held.

The services will be short, bright, interesting and helpful, with commence at seven o'clock and conclude probably before eight but not later. This will leave ample time for other suitable engagements after the service.

## EASTERN STAR

The regular meeting of the Grimsby Chapter of the Eastern Star was held on Tuesday evening, May 17th, when the Chapter was honoured with the presence of Mrs. Florence Andrews, W.G.M., of the Grand Chapter.

Among the other guests were Dean Currie, Matrons and guests were also present from the Westminster and Eldorado Chapters. Following the meeting the Benevolent Group held a draw following Mrs. Nora Chambers and her committee served a delicious luncheon.

Susette Sutherland, former member of Boris Volkoff Canadian Ballet Company, who opened a dance studio in Grimsby last year, will present her second annual dance recital on Friday evening, May 27th, in the auditorium of Grimsby High School.

MISS MAY CRITTENDEN,

Resident Staff Correspondent.

Telephone Your News Items To Her.

Mrs. James Gillespie of Park Rd., spent a few days last week in Toronto with her daughter and son-in-law, Mr. and Mrs. Jack Green and had the pleasure of attending the Mother and Daughter Banquet of the C.G.T.T. of which her daughter Irene is the leader.

The Parent and Teacher's Association of the Grimsby Park School held their last card party of the season on Friday evening, May 13th. There were ten tables in play, seven bridge and three euchre. The proceeds of the evening are to go to the annual field day for the children.

The prize winners were—Bridge, Mrs. W. Grossmith, and Euchre, Mrs. H. Robinson. The committee, Mrs. J. Hogan and Mrs. M. Nellen, assisted by the teachers served a delicious lunch.

Friends of Miss May Duskard of Brantford will be sorry to hear that she passed away in Brantford hospital and was buried on Saturday.

The next meeting of the Women's Institute will be held June 9 at the home of Mrs. Henry Robinson. Roll call: One duty of a good citizen.

The Women's Institute was held at the home of Mrs. Morris Udel. The programme consisted of house hold hints which would shorten the day's work.

Mrs. Rouse gave a very humorous reading in which the monkeys

stated definitely that man did not descend from them.

The roll call was answered by Your Favorite Flower and the meeting was closed by the benediction.

Lunch was served by the hostess assisted by Mrs. Cole and Mrs. All-drick, after which Mrs. Udel invited the ladies to her garden where each were presented with several plants.

A vote of thanks was extended to Mrs. Udel for a very pleasant afternoon.

Mr. W. Sterling, of the Pittsburgh Water Heater Co. is on a business trip to Western Canada including Calgary and Vancouver.

Mrs. Lillian Orrell, Pittsburgh, and Mrs. Mary Hanna and Mrs. Anna Sterling, Harrisburg, spent the weekend with Mrs. Sterling's son, William Sterling.

Mrs. H. Rayner returned Sunday from a two weeks visit with her son Capt. H. S. Rayner, R.C.M., at Royal Roads, B.C.

Miss Maggie Hancock of Oakville, is spending three weeks visiting at the home of Mr. and Mrs. J. Apin.

Mrs. Trant, Miss K. M. Trant and Mr. P. H. Trant of Grimsby, and Mr. and Mrs. I. H. Trant and Miss Alice Trant of Grimsby Beach, were in Toronto on Saturday, where they attended the wedding of J. F. Trant, Jr., to Miss G. L. Parks. J. F. Trant is the grandson of Mrs. Trant of Grimsby.

The Grimsby Beach Wolf Cubs lifted their heads and bowed lustily to their Akela to start the meeting last Friday, which was held at the mountain lair, much to everyone's delight. After the circle the senior boys had some good practice on their signaling. More trees were planted and little barriers made so that the young trees would not be crushed.

Frank Mattie, Simon Baker and Bruce Bramham all managed to pass their first star log-walking test with a minimum of teetering. Then the cubs went for a real ramble through the woods and came back to the lair as hungry as full grown wolves. Everyone helped make the fire and get the sticks ready for the pleasant business of roasting "hot-dogs." After a wonderful supper, a happy outdoor meeting was concluded.

Good hunting, Cubs!

Parents' and Teachers' Assn. Mrs. Mac Nellen presided over the regular monthly meeting of the Grimsby Park School Parents' and

Mayor C. W. Lewis found that being a judge in the recent Optimist Club contest to select a Miss Grimsby was anything but an easy task. Six lovely girls made the selection of the judges a difficult one. However the honor went to charming Bea Demerling, daughter of Mrs. B. Demerling, John St., and here the Mayor is all smiles as is Miss Grimsby as the crown is placed on her pretty brunette head. Other candidates for the Miss Grimsby title were Olga Treschuk, Carol Baxter, Joyce Byford, Ruth Clark and Gloria Jarvis.

Teachers' Association on Friday afternoon. A very small number

were present. Reports were heard from the different committees in charge of the Sports Day program to be held on Wednesday, June 1. A few words of appreciation were given on behalf of the Association to the teaching staff for their kind and faithful assistance throughout the past year. A Nominating Committee consisting of Mrs. R. Young, Mrs. R. Cloughley and Mrs. Fred Lee was appointed. At the close of the business meeting, refreshments were served by Mrs. H. Astle, Mrs. R. Cloughley, and Mrs. L. Foster.

## Nuptials

POWELL—KEMP

On Saturday, May 14th, the wedding took place in Trinity United Church of Margaret Ware, daughter of Mr. and Mrs. H. W. Powell, and Robert Garfield, son of L. A. Cad, and Mrs. E. G. Kemp, both of Grimsby. The Rev. A. L. Griffith officiated.

Given in marriage by her father, the bride was dressed in white satin and lace with a long train and veil. She carried a bouquet of white roses. Attending her were her two sisters, Dorothy and Ruth Powell, and the groom's sister, Dawn Kemp. They were dressed in pink-winkle blue taffeta gowns with picture hats and gloves to match, and carried cerise roses.

The best man was Mr. Richard Cornell from Montreal. The ushers were Mr. Charles Corbett from Lunenburg and Mr. Jack Randall from Regina. Mrs. John Reid, a college classmate of the bride, was the maid of honor. She sang "O Perfect Love" and "The Lord's Prayer." The church was decorated with pink and white flowers.

The reception was held at the residence of the bride's parents. The bride's mother received in a cinnamon brown lace dress with a corsage of pink carnations, while the groom's mother wore a grey crepe dress with a corsage of rubycarnations and cream roses.

Among the out of town guests attending the wedding were Miss Jean Cameron, New York; Mr. and Mrs. John Fox, St. J. W. Powell, Ottawa; Mrs. S. Lapointe, Montreal; Miss Jessie York, Toronto; Mr. and Mrs. Sanders, Peterborough; the Misses Ellis, Kimberley; Mr. and Mrs. W. T. Stewart, Foxburg; Mr. and Mrs. M. S. Moore, Stouffville; Mr. and Mrs. C. M. Laidlaw, Atwood; Mr. and Mrs. B. Kemp, Oakville, and numerous other guests.

On leaving the bride wore a wreath, with a navy blue hat and pale blue flowers, and a corsage of roses. After the honeymoon the couple will reside in Hamilton.

## COMING EVENTS

The Trinity Service Group are holding a RUMMAGE SALE in the Masonic Hall upstairs this coming Saturday, May 21st.

The Trinity Service Group of the W.A. of Trinity United Church cordially invite you to their Spring Tea, which is to be held at the home of Mrs. J. H. MacMillan, Depot St., on Friday, May 27th. Hours: 2 p.m. to 5 p.m. and 8 p.m. to 10 p.m. Sale of Work. Admission 50c.

(The Trifurcate)

To-morrow, Friday, the 20th, is Cadet Day at G.H.S. The big day will officially begin with the church parade in the morning. Each year the High School Cadet Corps marches through town the morning of our annual inspection and attends one of the local churches. This year is no exception and we leave the school grounds at 10:30 a.m. for services at the United Church under the able command of Cadet Major Don Mogg. Cadet Capt. Ted Gayowski, and Cadet Sergeant Major Joe Tvanak.

A full-dress practice will be held before the church parade and again in the afternoon when last minute instructions will be received by Platoon Officers Ron Arkell and Earl Metcalfe of the boy's Co. No. 1; Val Smith, CO of Co. No. 2 (the girls); Katherine Morrison, Cadet Sergeant-Major; Platoon Officers Jackie Constable, Dawn Kemp, and Betty Shantz; and the Band Officers, Gerry Marsh, Irving Levine and Lorne Lindensmith.

After weeks of practice and hard work, the Corps should be able to put on a good show for the inspecting officer and his party of officials.

The actual inspection will take place on the school grounds at 7 p.m. the same evening. After a short P.T. demonstration by the boys and the flag-lowering service on the front lawn, GHS opens itself for inspection by parents and friends. There will be students' work displays in the classrooms, and gym work, rhythmic and dances of various types in the gymnasium by the girls and another demonstration by the boys.

Cocoa and donuts will be served to the cadets, and tea to the inspecting party and the staff.

Dancing to the music of Stan Bernard will be held between 9 and 9:30 and will last until midnight. For all cadets in uniform the admission price is only 15c each. Those not in uniforms will be considered as outsiders and will be charged 25c with the rest of the public.

Field-meets are a source of excitement, display of sportsmanlike qualities and good, healthful fun. We have two of them coming up. The first is the Annual Sports Day held by the Canadian Legion of Grimsby, Tuesday, the 24th of May. It will be held at the High School grounds and the events will begin at 1 p.m. Closed events include GHS so how about some of you athletes bringing fame to the school?

The next one takes place at the St. Catharines College on Saturday, the 26th. This field-meet is the Annual Niagara District track and field set of the C.O.R.S.A. The events and groups are posted and those interested in competing, see Mr. D. Awa for further information.

We certainly need reminding that this is the year of the 25th May, next week! Then they arrive a deserved rest while all or forms write their final for these. These finals will begin

on the 6th or 7th of June in order to have them over and done with by the 13th when Grade 13 students start their Departmental Examinations. These are due to be over the afternoon of the 22nd and Friday, the 24th, will be the day the other forms return for their report-cards.

"Studentus" has gone to press and should be ready for distribution throughout the school and town by the second week in June. Let's all get a souvenir reminder of the year '49.

## CARD OF THANKS

Mr. Frank Bentley, Doran Ave., wishes to thank his many friends for cards, flowers, and kindnesses shown during his stay in Hamilton General Hospital.

## ENGAGEMENT

Mr. and Mrs. William Konkle, Beamsville, announce the engagement of their eldest daughter, Irene Elizabeth, to Gary David Donald Rooker, son of Mr. and Mrs. Edward Rooker, Grimsby. Marriage to take place on Saturday, June 18th, in St. Andrew's Anglican Church, at three-thirty o'clock.

## BEAMSVILLE REBEKAHS

On Monday evening, May 16th, Benevolent Rebekah Lodge 132, Whitty, paid the local lodge a fraternal visit.

At 6 p.m. about 80 members sat down to a lovely banquet served by Sis. Jaileen LePage, P.M.G., and her committee.

A joint meeting with Alenina Lodge, Grimsby, was held during the evening, with Sis. Ella Black, N.G., presiding. During the evening, Benevolent Degree Staff, Whitty, conferred the degree on several candidates.

The Assembly guests of the evening were Sister Burnstead, President, of Menford, Sis. Jean Burch, Warden, of St. Catharines, Sis. Mildred McCree, Conductor, of Dundas, Sis. Gwen Hall, D.P.P., of Oakville, Sis. Lillian Correll, D.D.P., of Whitty. About 200 attended the meeting.

After several presentations were made, the meeting was closed by officers of Alenina Lodge, Grimsby, after which all partook of a sumptuous lunch provided by the two lodges.

## PLAYER'S GUILD PRAISED AT DRAMA FESTIVAL

The Grimsby Players' Guild took their latest drama "The Monkey's Paw" to the Drama League Festival held last May 13 and 14 at Welland and very nearly came up with a win. The Adjudicator and noted drama critic, Mr. James Dean of Toronto, had a great deal of praise for all the members of the cast but still failed to award them the cup.

Included in the cast of the Grimsby production were Rev. A. L. Griffith, Ed. Mac, Shirley Heatherde, Bill Phoenix and Bill Bain, with Joy Mack handling the direction.

There were a total of six groups in the festival which included Grimsby, Stamford, Welland and three St. Catharines entries. The Stamford entry took three of the six cups offered.

This production was the last of the season for the Guild which will resume its activities in September.

### RETIRING FRUIT INSPECTOR HONOURED

J. Howard Duff, Beamsville, recently retired as senior inspector of the Niagara district west, Dominion Fruit and Vegetable Inspection Division, was honoured recently by his former associates with a dinner at the Da-Nite Hotel, Stoney Creek. On behalf of the inspection staff, Mayor Clarence W. Lewis of Grimsby, presented a fishing outfit to the retiring inspector. Here, from left to right, are: Mr. Dawe, Harry Tufford, Vineland; Karl B. Conger, Ottawa, representing the Dominion Fruit and Vegetable Inspection Department; H. H. Ponton, Grimsby Beach district chief inspector; Mayor Lewis; Harold Pickett, Grimsby; and Warren McNiven, chief inspector of the Ontario fruit branch.

## CONTINUATIONS

From Page One

### PEACH DAIRY BAR

all recovered with mastic tile and the cash desk has been placed by the south-east door.

The back part of the building has now been completed and the kitchen considerably enlarged. The wash rooms have been changed to a new position and a new air conditioning and heating unit has been installed. There are two new apartments on the upper floor in which tenants are already living and on the lower floor back is a new suite for the owner and his family.

All in all the face of the building inside has been completely lifted and the resulting change is very much for the better.

After the grand opening on May 21, meals will be served, including breakfast, lunch and dinner at any time of the day between 7 a.m. and 12 p.m., seven days a week. Beamsville Dairy milk will be sold to customers over the counter at all times.

The doors of the new restaurant will open at seven sharp on Saturday, May 21, and customers will be welcomed thereafter. Between four and six that afternoon free ice cream will be served to all school children, on a first come first served basis. The Independent welcomes its new neighbor and wishes Mr. Tragers success in his latest venture.

### CAVALCADE OF QUEENS

ince, while Beth Gilliland did the honors for the city of Hamilton.

Features of the Motorcade included the gaily painted car of Jimmy O'Brien, president of the Grimsby Junior Chamber of Commerce, while another feature was the car carrying the Miss Pitts, a group of most charming young "ladies" portrayed by Doug Cole. Don Dixon, Don Riches and Walter Hilt. Walter was delightful in a fur ensemble, and black cigar, which went well with the red hair chosen for this occasion. Doug Cole apparently dressed for the cool weather, but managed to look positively chic in long white class fitting underwear. Fashion experts are likely to get ideas from this newest costume. In a brief outfit for beach wear, blonde Don Dixon gave everyone a chill-thrill, his blue body being the very latest thing from Paris. Don Riches, the driver of the Miss Pitts auto peered from behind a hideous mask and somehow or other managed to convey his "girls" safely through the entire route.

Many other vehicles joined the Motorcade, and it made a very colorful showing as it travelled first to Burlington, where Mayor Craig presented the Blossom Queen with a bouquet of carnations on behalf of the Town. Police escorted the Motorcade through Hamilton, where Main Street was well lined with persons awaiting the arrival of an Army Cavalcade, which for some reason never did show up.

From Hamilton the procession wended its way back to Grimsby after a minor mix-up at Stoney Creek. By the time the Motorcade had reached Grimsby, all those apparently reclining with ease in the showy convertibles were actually blue with the cold. However, the show went on in traditional style, and by six o'clock the Queen and her court reached Niagara Falls, where the City Police had fallen

year, stealing the show from the larger centres. Press and radio have come to realize that a small town can do wonders, and for sure the Optimist Club and the Grimsby Junior Chamber of Commerce did a remarkable job of publicizing Grimsby—the heart of the fruit belt.

# SPORTRAYAL

By "HIGH" MCGREGOR

Softball finally came to life with a bang over the past few days, all resulting from a meeting of the Fruit Belt League, which is all ready to go again with six teams entered. Tom Collin will be the President, while Dr. Leed, another good sportsman of Smithville, has been appointed Vice-President. Bobby Neale of Grimsby, replaces Art Metcalfe as Secretary-Treasurer.

A schedule is at present being drafted, and with practically all teams insisting on a special night for home games, the chore is a bit difficult.

The League opens on May 26, the teams entered for competition are Beamsville, Grimsby, Smithville, Stoney Creek, Fruitland and Tapscott.

Tapscott for those who might not recall this thriving little village is located south of the Stoney Creek Mountain, perhaps about five miles as the crow flies.

The schedule will be a double affair, with four teams entering the playoffs. The two finalists will then enter Intermediate B and C competition. This is the same setup as existed last season when Stop

60 and Smithville went on into OASA competition.

Doc Schwab, Grimsby's famous old (7) man of softball may not be wearing the mask this summer, but he will pilot the Grimsby team, which at the present time has no sponsor—no sweaters—no nothing, except plenty of enthusiasm, which after all is the important thing. Grimsby should have a very strong entry this summer, and with Frank Bouk coaching, softball fans are in for exciting and comfortable relaxation at the public school grounds—thanks to the grandstand erected last year by the Lions.

Question of the week. When is the CAHA going to smarten up and get their hockey playoffs over before the kids should be going in training for the oncoming season? This is one outfit that nearly overshadows the OHA for utter stupidity.

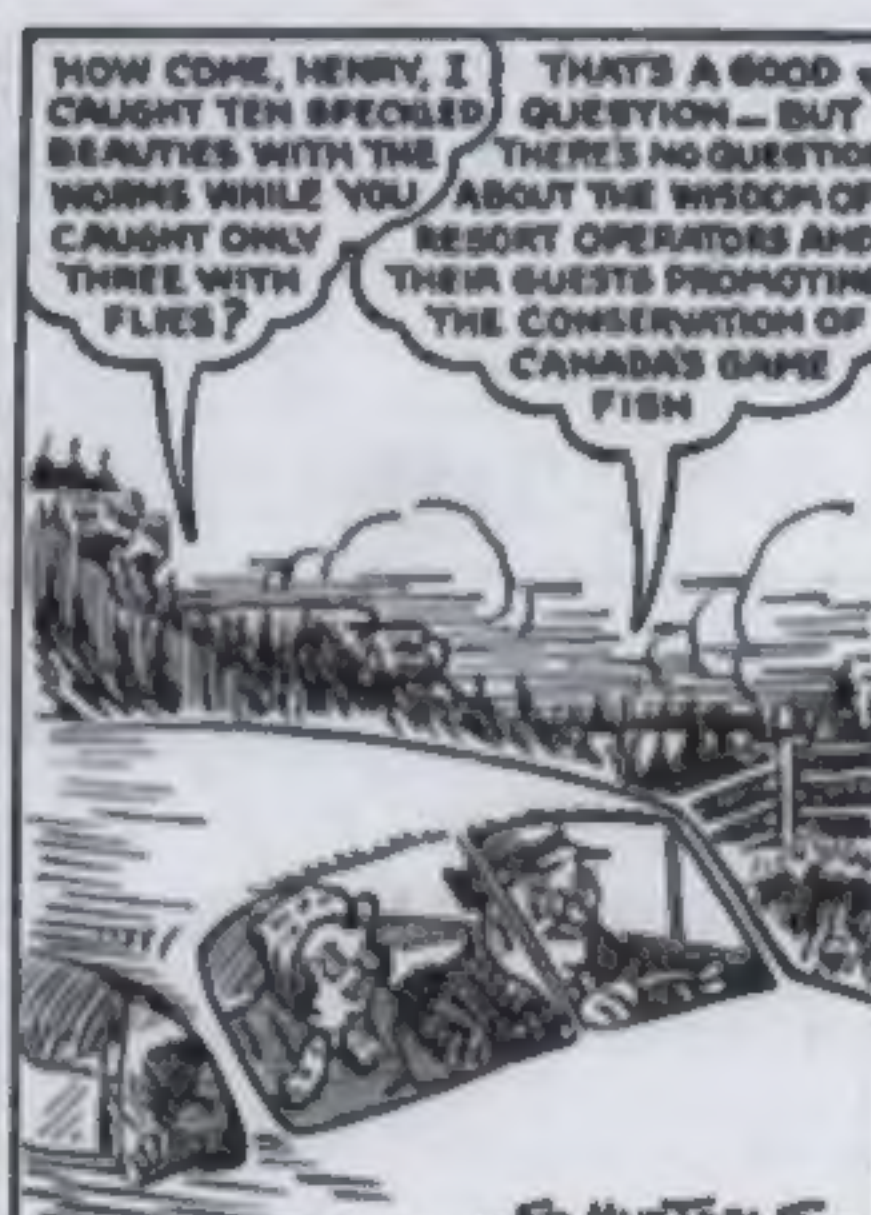

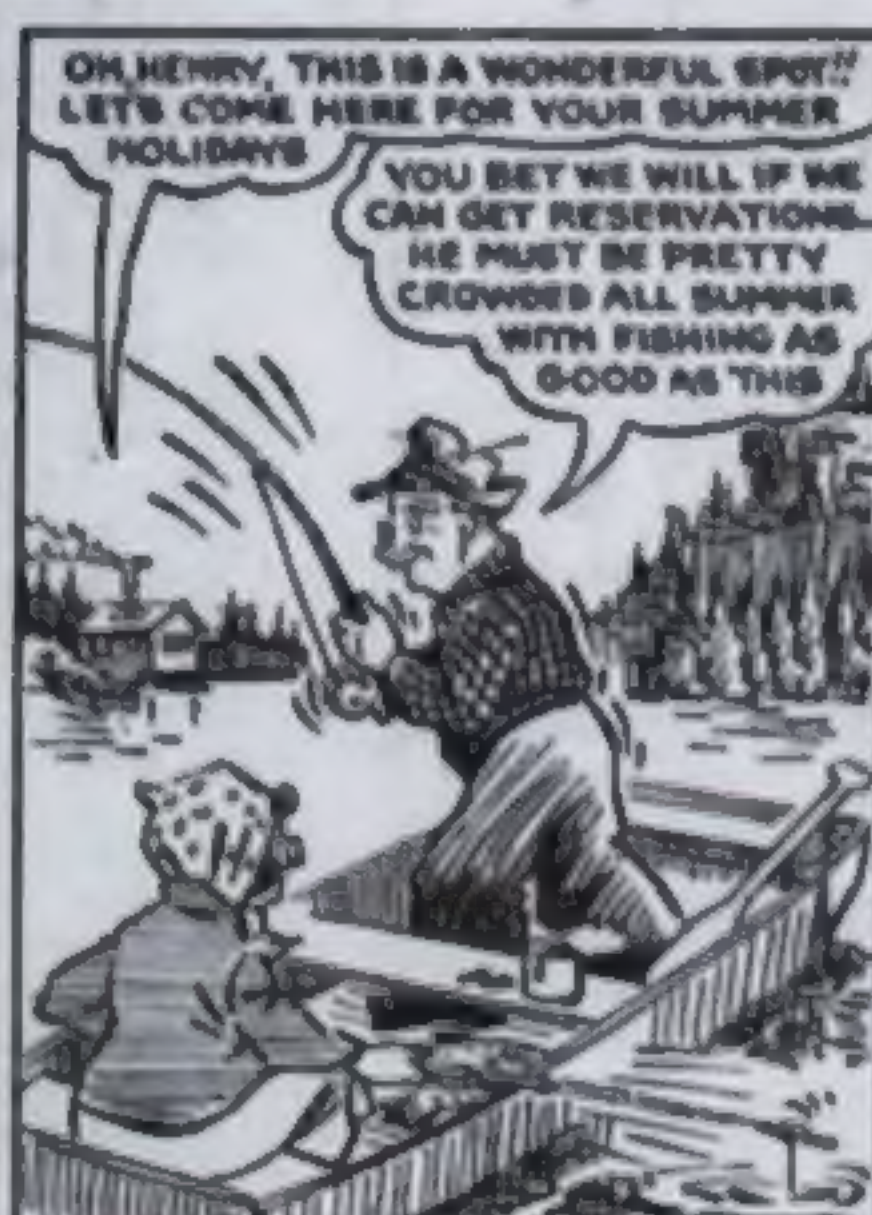

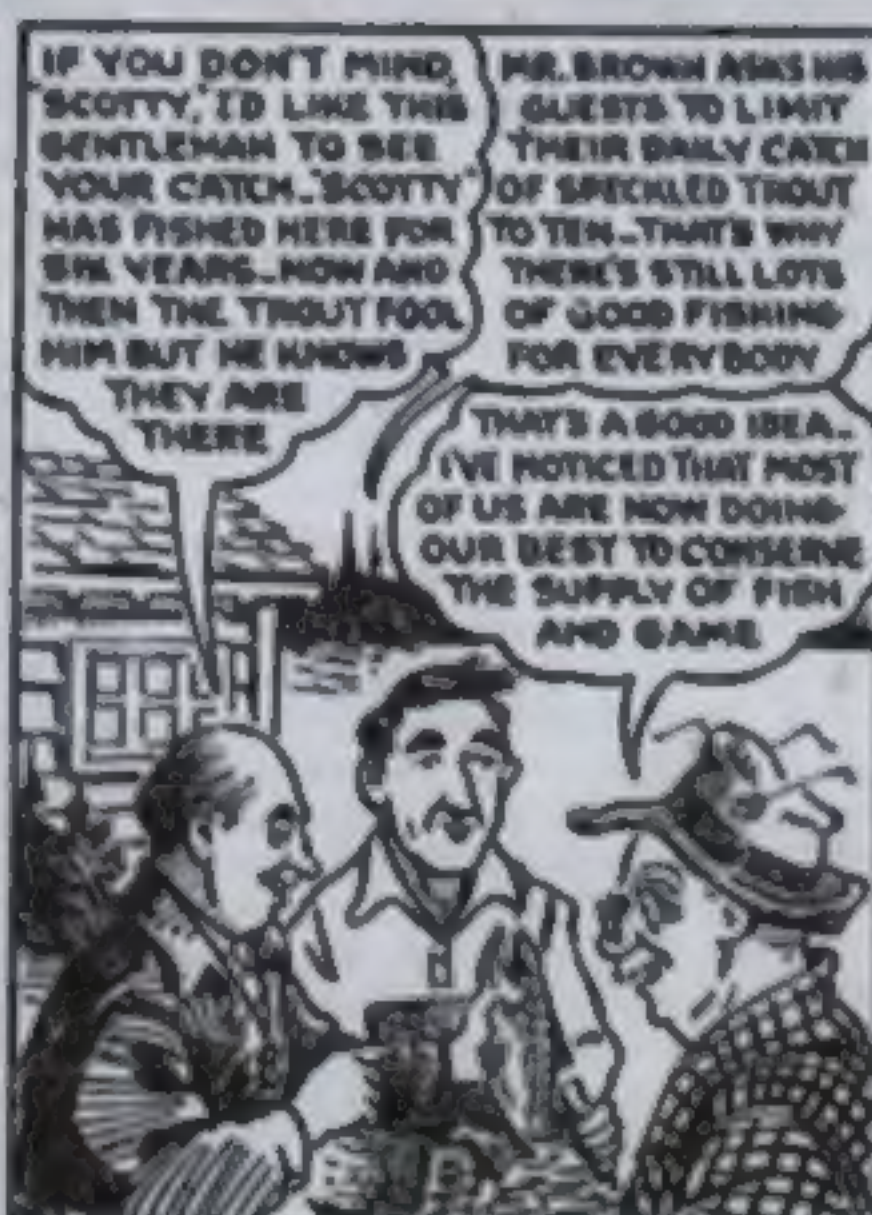

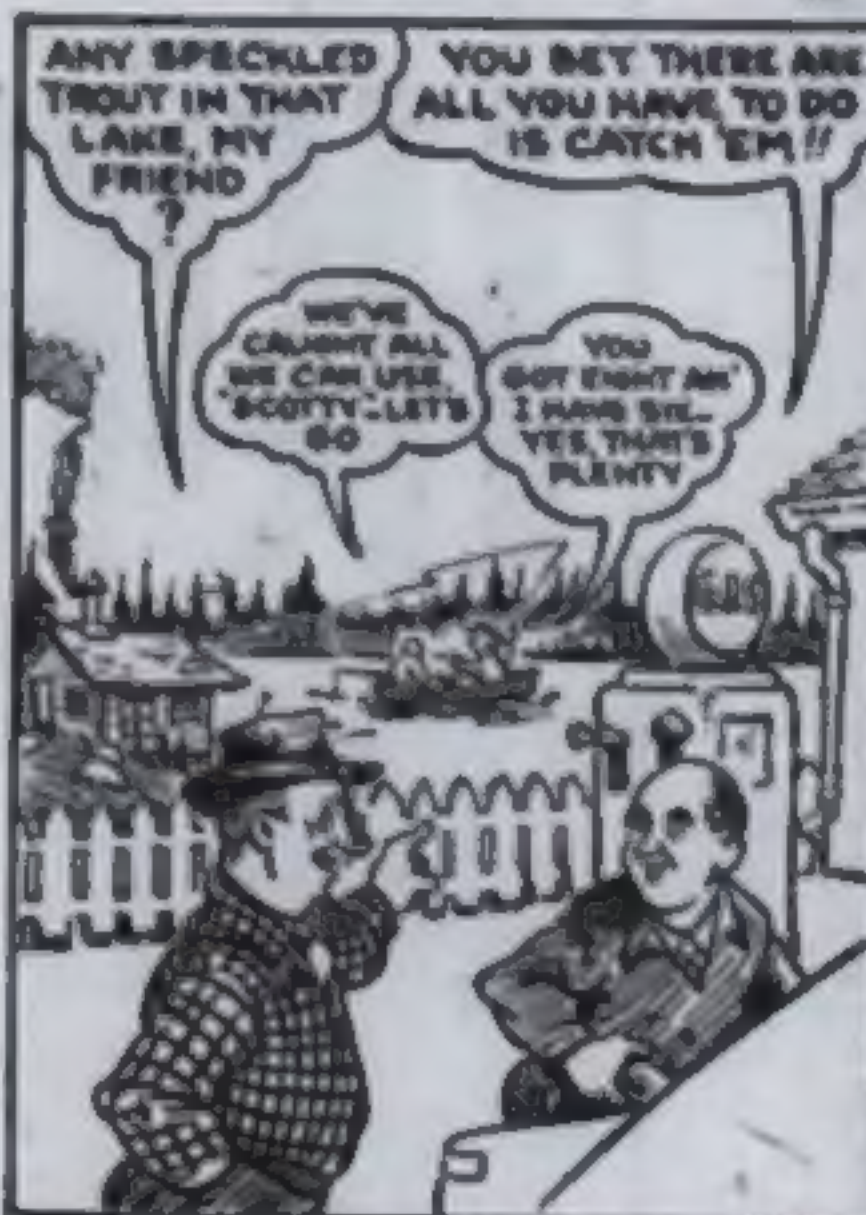

The gals are penetrating the softball scene this summer... and although matters are rather clouded at the present time, indications are that a six team girls league will be in operation this summer. Besides Winona and Grassie, entries are expected from two and perhaps three Grimsby teams, and of course, the Beach is likely to have another strong team as soon as school is out for the summer.

The Legion Sports Day scheduled for the 24th is drawing plenty of attention this year, and undoubtedly the event will be the largest yet for the Legion lads. Some really fine track and field men have already entered from as distant as Brooklyn, N.Y., so the day takes on an international flavor this year.

Tickets are printed on the Peach King car which will be drawn come next November. There are so many clubs and organizations selling tickets on cars, it would appear that the best possible way to get a new car these days is to buy every available ticket... your chances of getting one are just as bright as trying to get a dealer to get you one... especially a Ford.

## CARLING'S

## CONSERVATION CORNER

Far-sighted tourist resort operators and their guests who are actively helping to conserve Canada's supply of fish and game deserve the highest praise. Through such conservation efforts, Canadians and their visitors will continue to enjoy the bounties of unspoiled nature.

### AN EXCLUSIVE GAME

Court tennis is the most exclusive game played in the United States, having been introduced in 1876. It differs from lawn tennis in rules and equipment, particularly in the construction of its court. As the average cost of such a court is about \$100,000, only 14 have been installed—ten of them in private clubs. No more than 500 Americans today play court (or royal) tennis and less than 5,000 others have ever watched a game.

their racers. Wheels and axles have complete with carrier. Further details on this will be announced shortly.

Close to six hundred dollars has been forwarded to St. Catharines headquarters, this amount representing the sum given by the Grimsby in the recent appeal for people of Grimsby and North funds for the Lincoln Children's Aid Society.

You can tell if the proposition has merit. The grafters are willing to take it over.

### LEGION SPORTS DAY DRAWS MANY ATHLETES

Entries are rolling in for the Track and Field Meeting and Road Races to be held on the Grimsby High School grounds on May 24th by West Lincoln Branch, Canadian Legion, under sanction of the South-western Ontario Branch, Amateur Athletic Union of Canada. It now looks as though the event will be the biggest and best of its kind yet staged by the Legion.

Included in the entries so far received are 22 from the East York Track Club, of Toronto, and others from the West End Y.M.C.A., Toronto; Lake Shore Y.M.C.A. Track Club, New Toronto; Gladstone Athletic Club, Toronto; also from athletic clubs in Hamilton, Stamford, Kitchener, Brockport, N.Y., and other places.

Principals of both high and public schools in the district are urged to have their student athletes enter the closed events for which there is no entry fee, and which are restricted to the area of Beamsville, Smithville, Saltfleet, Winona and Grimsby. In the open events, in which the athletes from outside points will compete, there is an entry fee of 25 cents for each event entered.

Grimsby and district merchants and other friends of the Legion are contributing well towards the prizes which once again will be above the average for such events.

The track and field are both in good shape and every facility in the way of showers and dressing rooms will be available for visiting athletes. All in all, Col. G. R. Chetwynd and his committee are sparing no effort to make the event one long to be remembered.

Those wishing entry forms may secure them from Blake Marlow at the Lincoln Electric Supply store, Grimsby.

### OPTIMIST SOFTBALL TEAMS ARE FORMED

Meeting at the Village Inn on Thursday night, members of the Optimist Club heard reports from various committee chairmen, regarding various enterprises now underway. Chairman Art Arkell of the Boys' Committee, reported that four softball teams had been formed.

## Bonus Built

### FOR EXTRA STRENGTH IN EVERY VITAL PART

**MY CHOICE FOR MANY JOBS!**

With its bigger body—featuring 45 cu. ft. capacity and load width of over four feet—the F-47 Pickup gives economy as great as its range of uses.

**I WANT THRIFT—STYLE, TOO!**

Sealed-tight construction of model F-47 Panel keeps out dust and fumes—protects your perishable loads. And owners enjoy smarter style and lowest costs for gas, oil and upkeep.

**I NEED CAPACITY—PLUS!**

The F-48 Express has a combination of 1-ton rating and a big body of over 62 cu. ft. capacity. Full Floating Rear Axle—just as in heavier trucks!

**MY LOADS RUN BULKY, HEAVY!**

Three wheelbase lengths and rugged 2-ton hauling ability of F-135 units give owners a heavy-duty truck for bulky loads.

**MY WORK FINISHES TRUCKS!**

In the forests, construction camps, wherever the trucking is toughest—you'll find more Ford F-135 3-ton Tractor owners. Ford Trucks are built stronger to last longer.

**SEE YOUR FORD TRUCK DEALER**

**That's why Canadians use MORE FORD TRUCKS THAN ANY OTHER MAKE**

- \* **POWERFUL V-8 ENGINES**  
Heavier, balanced crankshafts give extra work reserves.
- \* **EXTRA TOUGH AXLES**  
Full Floating Rear Axles for longer life.
- \* **EXTRA STRONG FRAMES**  
Give a wider range of use in all models.
- \* **"MILLION DOLLAR" CAB**  
Top "Living Room Comfort" Level action ride suspension.
- \* **EXTRA EASY HANDLING**  
Heavy-duty roll action steering linkage "Feather Foot" Hydraulic Brakes Gyro Grip Clutch for low pedal pressure.

\*BONUS: Something given in addition to what is usual in industry.

## TURNING THE PAGES OF "CANADA UNLIMITED"

When Canada was growing up, hewing a living from the virgin forest left little time for holidaying. By the 1790's, visits to distant friends were popular. Settlers would travel three hundred miles by stage in winter to see their friends.

Picnics were popular by 1835. While the men fished, the women picked berries, and all joined for lunch. In Springfield, picnics in the woods for "maple-sugar making" were greeted with delight.

With the arrival of the automobile about 1900, and improvement in the roads, people began to travel to "see the sights". Touring to Niagara Falls, Muskoka or the Laurentians, became a common holiday pastime.

Tourism, tourism is big business. Canada is a vast wilderness, with countless surprises for the sightseer—and each year millions of Canadians and visitors tour our land. The opportunities that exist in the tourist industry are many—for there's room to grow in Canada Unlimited.

Just how much room is told in "Canada Unlimited", an illustrated 144-page book published by the O'Keefe Foundation. You may obtain your copy by sending 25c in cash (no stamps or cheques, please) to "Canada Unlimited", Dept. NI-4, O'Keefe House, Toronto, Ontario. Please print your name and address clearly. All orders received will be donated to the Canadian Citizenship Council.

**O'Keefe's**

\* A council of service, welfare, church, labor, fraternal and other organizations whose aim is to assist new Canadians with the opportunities offered by democratic citizenship in Canada.

## SPORTOLOGY

(By Bones Livingston, Sportologist)

(By RALPH ALLEN, in The Toronto Telegram)

What about Sunday sport? Meaning the legal and factual sides of this burning public issue. What are the laws, who makes them, and who has the power to change them?

Curiously enough, the people who are most militant in their support of Sunday sport appear to be more than a little confused about law to get action. City council is constantly being importuned to legalize organized Sunday sports and at least once a year the municipal fathers debate the question with great vigor and solemnity. The truth is that city council has no more power to legalize Sunday baseball than it has to withdraw the Red Army from Berlin. Its insistence on acting as though it had retarded the cause of Sunday sport by at least 20 years, for the end result has been that the politicians who do have the power to act—specifically the provincial and federal members of parliament—seldom hear from their constituents on the matter at all. And Sunday sport is one of those issues on which the average politician is more than happy to hear nothing, say nothing and do nothing. The anti among the electorate are much better organized and much more vocal than the pros. A member of parliament has ample reason to suppose that they are also in the majority—as they may be at that.

### What the Law Says

The basic restrictions against professional team sports—and amateur team sports with a fixed admission price—are set forth in the Lord's Day Act, a 42-year-old federal enactment. The parts of the act which apply to team games on Sundays are sections 4 and 6.

Section 4 says: "It shall not be lawful for any person on the Lord's Day, except as provided . . . in any provincial act or law now or hereafter in force . . . to carry on or transact any business of his ordinary calling, or in connection with such calling, or for gain to do, or employ any other person to do, on that day, any work, business or labor." There is a long list of exemptions, both in the Lord's Day Act itself and in other over-riding laws, but athletes are not included. Section 4 indicates clearly that a professional ball player or hockey player can't play ball or hockey on Sunday.

Section 6 says: "It shall not be lawful for any person on the Lord's Day, except as provided in any provincial act now or hereafter in force, to engage in any public game or contest for gain, or for any prize or reward, or to be present thereat, or to provide, engage in, or be present at any performance or public meeting, elsewhere than in a church, at which any fee is charged, directly or indirectly, either for admission to such performance or meeting, or to any place within which the same is provided or for any service or privilege thereat." In short, even if the players are amateurs or semi-pros, you can't make the spectators pay to get in.

Until eleven months ago, another restriction, applying to Ontario, placed further difficulties in the way of team sports on Sundays. This was a 105-year-old act which said you couldn't "play at skittles, ball, football, racket or any other noisy game or gamble with dice or otherwise, or run races on foot, or on horseback, or in carriages, or in vehicles of any sort." This was repealed by the federal government last June at the behest of the provincial government. Thus, amateur and possibly semi-pro sports are now legal here, provided there's no ticket sale.

The escape clauses in the laws against professional sport and admission fees are those twelve words in Section 4 and 6 of the Lord's Day Act: "Except as provided in any provincial act now or hereafter in force." If this seems to mean what it says—and it has never been entirely clarified in the courts—the provinces have the right to lift or rewrite their own laws, regardless of what the federal act says.

If I wanted Sunday sport, I would improve my local representatives in City Council to quit wasting their time and my money by debating an issue outside their jurisdiction. I would improve my representative in the provincial legislature to get up on his hind legs and do something in the place where it can count.

## LAWN BOWLING OPENING ON VICTORIA DAY

After some days of intensive work on the greens, the Grimsby Lawn Bowling Club is at last ready to open for the season. The careful watering, rolling and cutting recently completed on the greens has reduced it to a billiard table smoothness ready for the first bowling action.

The grand opening is slated for the 24th of May at 7:45 p.m. and all local club members are urged to attend. At the present time the locals are 75 strong and are hoping to increase this figure by a considerable amount. Applications for admittance to the club will be welcomed from anyone who might be interested in spending some spare time in a healthful sport which will provide both fun and exercise.

Already the club is looking forward to a future event of some considerable importance. This is an open tournament for men which will be held on Wednesday, June 22nd. Entries for this event are already being received. This tournament is to be held here in Grimsby with the Grimsby club acting as the sponsors. It is thus hoped that a goodly number of local men will see fit to enter the contest.

Don't miss the first jiffy of the coming season at 7:45 p.m. on the 24th of May.

## SOAP BOX DERBY WILL HAVE GRIMSBY ENTRIES

Representative Sandy Crews and Chairman Bill Dunne of the St. Catharines Soap Box Derby Committee, held a short, snappy meeting in the St. Andrew's Parish hall on Monday, May 16, with possible contestants for the St. Catharines race to be held July 16. About 30 youngsters were present to see the short film of last year's Derby and to hear a talk by Mr. Dunne on the valuable prizes being offered.

Last year's Derby was held at the St. Catharines airport where the committee constructed a large ramp for the purpose with a long concrete runway which was fenced off for the protection of the crowd and the competitors. A mammoth parade was held beforehand and prizes were presented at ceremonies following the race.

Included among the prizes for 1949 are an all expense paid trip to Akron, Ohio, for the winner and his family in order that he may compete in the national final. Other prizes are an airplane trip over Niagara Falls, \$25 in cash, a wrist watch, for the best steering design,

a portable radio, for the best brakes, a pair of field glasses and various heat prizes of which each winner can take his choice.

This year's Derby will again be held at the St. Catharines Airport on the 16th of July. Local contestants who plan to enter number somewhere in the vicinity of 12. Those local boys who are interested should contact Ron. Frudhomme immediately. Entries close this Thursday.

## CONTINUATIONS

From Page One

## STONE CREEK

party were guests of H. T. Stewart at an informal dinner in the Pines Hotel.

T. A. Fleming, Bell Telephone manager at Hamilton, who took over the supervision of the company's commercial affairs in Stony Creek co-incident with the cut-over, said that the conversion was effected smoothly and without incident. Stony Creek citizens are experiencing no difficulty in using the dial, he added. Mr. Fleming took over the Stony Creek territory from Mr. Stewart, Bell Telephone manager at Grimsby, who continues to have supervision over the Winona territory.

The final phase of the cut-over operation is now underway, with the commencement of the removal of magnet telephones from the homes, offices and stores of Stony Creek subscribers. Bell installers expect to finish this task shortly, when the hand-crank telephone will be "only a memory" in Stony Creek.

## SIR JOHN A.

Miss Elliott, of Oakville, will be at the park for a week or two.

Mrs. Shoemaker and family, of Philadelphia, and Mrs. Hey and family, of Brantford, have returned to their respective homes.

Mr. W. Keagy and Mr. J. French, of Rochester, N.Y., are spending their holidays at Gladstone cottage.

Mr. and Mrs. R. P. Hopper, of Claremont, Ont., are at the Park House this week.

Among those who were over on civic holiday were noticed Mr. W. Fisher, Mr. W. Rundle, Mr. Irving, Mr. H. O'Hara, Mr. and Mrs. A. Pearson, Mr. and Mrs. R. O. West, Mr. E. Boyce, Messrs. W. and J. Bickle, Mr. and Mrs. P. Thompson, Mrs. McPherson, Mr. J. McBrine, Miss E. Johnston, Mr. A. Lawson, Mr. Taylor, Mr. J. McCandless, Mr. Merrick, Mr. W. J. Darby and Mr. W. Ziller.

A breezy column headed "On Dit," tells of Torontonians on vacation, mostly in the Muskoka district, and we read that "the residence of Dr. Larratt Smith on Joseph Lake is considered one of the most beautiful in Muskoka." A whole page is given over to sports. Richard Howell, King of the Wheel, is pictured standing beside his high-wheeled bicycle, the kind known as "penny-farthing." A Cleveland-Baltimore baseball game was scheduled for Sept. 16th; with Cincinnati, Columbus, Brooklyn, Detroit right in there pitching, as they have been every year since.

What was on at the show? Well, the regular season of Jacobs and Shaw's Toronto opera house was about to open with the favorite melodrama, "Under the Lash." In which Mr. Walter S. Sanford and two performing dogs appear. A news story tells of the approaching marriage of the Duke of Aosta with his niece, Princess Letitia Bonaparte. Another story is of an ingenious contrivance known as a dirigible balloon. A novel by Bret Harte, "The Story of a Mine," is running as a serial.

But LIFE really goes to town in its descriptions of the gowns worn by beautiful society ladies at the New York State resort of Long Branch. First, though, let us learn what the "dudes" are wearing. A little coat that looks as if it had all run to collar, like a government mule's harness, and a vest that fits too much, a shirt front like a skating pond, with a low-necked shirt collar and four-in-hand necktie, a yellow rose, an eyeglass, a cane, and a pair of very wide trousers.

Styles of sixty years ago were an adaptation of Elizabethan dress, with their puffed sleeves, tiny waists and elaborate bodices. These were topped by small bonnets with lofty trimmings pinned on top of the head, sometimes tied under the chin with ribbons.

Mrs. George M. Fulkner, wife of the palace car manufacturer, wore a superb toilette of bell-bottoms, with panels and trimmings of cream and silver brocade. Her jewels were a diamond necklace, with other diamonds in her dress and hair. This bell dress was made without a train, as few dance in trains nowadays.

Mrs. Sloane, one of the daughters of the late Wm. H. Vanderbilt, wore an elaborate satin, draped with Brussels point, with a bertha of tulle across the shoulders. She wore no jewels except solitaire earrings, although she could have worn half a bushel more or less if she had desired. She can afford it.

Mrs. Lily Langtry, (the famous actress) is at the Branch and seems to keep her popularity as well as ever. She wore at this ball a splendid dress of black velvet and rose pink silk, with train, very low neckline, and with all the diamonds she could get on. She has just announced her intention of leaving the stage at the end of this season and retiring upon her money, with the addition of what Mr. Freddy Gebhard may bring her, for she now announces her approaching marriage. Well, he has been faithful enough to deserve her.

While Mrs. Langtry is resplendent in a ballroom, she is handmaiden still when out taking one of her

interminable swinging walks, for her colour shows to its fullest advantage, and her perfect figure is good to look at. Mrs. Langtry is always modest in the size of her bonnets, and so folks look at her and her lovely figure and not at the bonnet.

LIFE ventures a prophecy that "in a few years from now Spadina Avenue will be the great business thoroughfare of Toronto. When the late Dr. Baldwin left the property to the city, it is probable that he destined it for a residence street, but Toronto to-day (1949) is full of push and enterprise and young and vigorous men, and the consequence is that store after store has crept in among the handsome residences of the avenue, until to-day it is spoken of as the coming business street of the city. Knox College will probably be removed ere long and where the few remaining residences now stand, rows of handsome stores will stretch."

Harriet Prescott Spofford contributed a set of pretty verses entitled "In the Twilight, while Sanborn Gave Tennyson comes through with Twilight in Acadia."

Now what of the advertisers? James Harris & Co., 99 Yonge St., were showing a fine assortment of Men's and Youth Mackinaws, and drab shell hats; while for the ladies there were lawn tennis hats, sailor walking hats and yachting caps. Special reductions were made in Seal Mantles purchased during the summer. There was a big Bargain Sale of dress goods and accessories at the Bon Marche Bankrupt Stock Emporium, 7 King East. Barnes Bros., Adelaide Street West, were holding an Auction Sale of Horsecarriages, etc. Pianofortes, grand, square and upright, might be seen at the waterworks of Heintzman & Co., 117 King West. Blackford's were selling fine American boots and shoes at 87 King East, and Whaley, Royce & Company's shop at 87 King East was the cheapest place in Canada for band instruments, sheet music, and everything in the music line.

The front page of this illustrious Journal is given over to The Motley Fool, whose outspoken comment on the Canadian scene of the time might have been written yesterday. He is very much concerned with the state of religion in the land. The Canadian Press Association comes in for a bitter word, too, the mildest term used to describe it being "bogus concern," and he mentions the fact that "some of the fakery comprising the Canadian Press Association have returned from the annual dead-head tour." On this score at least The Motley Fool would not have the same cause for complaint now.

What really burns up The Motley Fool we will let him tell in his own words: "The free park at Niagara Falls is very properly opened to the public on Sundays. But this does not suit the pre-sanctified showmen at Grimsby Park, the men who announced the presence of Sir John Macdonald at the park, at the same time having in their possession a letter from Sir John himself, stating his inability to be present. In the face of this letter the sanctified ones advertised what they well knew to be a lie, in the hope of coining a few more dollars. These clerical lads are terribly put out because the gates leading into the park at Niagara Falls are opened on Sunday, and consequently, a strongly-worded remonstrance is to be sent to the provincial government against the practice, and a hope expressed that the public will be deterred from the park on Sunday in future, and so Sabbath desecration be avoided."

A cut of The Motley Fool at the top of his page shows him basking in the sun on a grassy bank, hands clasped behind his head, and one foot neatly balanced on the toe of the other. Underneath is a question from Shakespeare—

As I do live by food I met a fool, Who laid him down and basked him in the sun, And rail'd on Lady Fortune in good terms, In good art terms and yet, a Motley Fool.

As You Like It. Act II, Scene IV.

Lincoln County Unit.

## LOST A TURTLE —NAMED MYRTLE

WHO LOST A TURTLE? A FULL-SIZED TURTLE NAMED MYRTLE?

A turtle with the name "Myrtle" painted on its carapace was found floating on Oak Street last Tuesday morning. An attempt was made to corral the creature until

the owner could be located, but Myrtle refused to be contained in captivity and was reluctantly given her freedom.

It is to be hoped that she turns up safely at home after her adventure into the unknown.

## JIM BEAMER APPOINTED ROAD SUPERINTENDENT

Four applications were received by North Grimsby Township Council to fill the road superintendent's position, left vacant by the death of Thomas Mackie. After due consideration, James Beamer was named to become the road superintendent. His duties commence immediately.

The special session of Council also took time to pass six more building permits in the ever expanding Township, and also passed a motion dissolving the present school district. This move will make way for the planning of the proposed high school area now under consideration in West Lincoln.

## C.N.R. MAIN LINE MOVED BY COLLISION

The rails of the C.N.R. main line were moved an inch, when a four and a half ton clam struck the top of the Elizabeth Street subway, as the driver of the truck on which the heavy apparatus was being conveyed, misjudged the clearance of the narrow roadway.

All train traffic was ordered to slow down to a speed of ten miles following the accident, and C.N.R. engineers were on hand to see that proper repairs were carried out.

The accident happened shortly after six o'clock on Monday evening. The driver for Mopac Construction, Gordon Latner of Hamilton, escaped injury, although the truck he was operating was nearly wrecked, as the impact wrenched the clam from its mooring and crashed to the pavement. Constable Davies investigated.

## MANY SOCIAL EVENTS

## Obituary

MRS. ELLA DOBSON

Mrs. Ella Dobson, widow of Walter Dobson, died at her home, 1 Paton Street, Grimsby, Sunday in her 94th year. Born in Nova Scotia on November 21, 1855, she had resided in Grimsby for the last two years, coming here from St. Catharines. She had previously lived in western Canada and the United States. Surviving are three daughters and two sons: Miss Mildred Dobson, Grimsby; Miss Gertrude Dobson, Chicago; Miss Mary Dobson, New York; Cecil, of San Francisco, and Harold of Winnipeg.

The Rev. E. A. Brooks conducted service at 8 o'clock Monday evening at Stonehouse Funeral Home.

Interment was made in the family plot at Dorchester, New Brunswick, on Wednesday.

MARSHALL ALVA CRAMER

Marshall Alva Cramer, resident of Grimsby for the last 30 years, died suddenly at his home, 10 Adelaide Street, on Saturday evening. In his 65th year, he was born near Delhi, Norfolk County, on March 8, 1883.

Before coming to Grimsby 20 years ago, he had resided at Hamilton Beach. A stationary engineer by occupation, he had been employed by United Distillers Limited, at Grimsby, for many years. He was a member of the Independent Order of Foresters and an adherent of Trinity United Church.

Surviving, besides his wife, the former Doris Spencer, are two daughters, Mrs. Frank Stasyk, of Grimsby, and Mrs. Howard Clausen, of Ancaster; also a brother, George Cramer, in British Columbia, and two sisters, Mrs. Charles Palmer, of Burgessville, and Mrs. Pearl Wilson, of Norwich.

Funeral services were conducted by Rev. A. L. Griffith, on Tuesday at 2 p.m., from Stonehouse Funeral Home. Interment was made in Queen's Lawn Cemetery.

Casket bearers were Gordon Lipsett, Russell Smith, Irving Olmstead, Gordon Hannah, Albert Dipper and Adam McGregor.

THOMAS ALBERT MACKIE

Thomas Albert Mackie, read superintendent of North Grimsby Township for the last 13 years, died at Hamilton General Hospital on Sunday, May 15th. He had been in poor health for some time. In his 81st year, he was born in North Grimsby on August 29, 1868, a son of the late James and Almira Mackie, and had resided in this township all his life. He was an adherent of St. John's Presbyterian Church, Grimsby. Surviving, besides his wife, the former Jennie Landown, is a daughter, Mrs. Len Cowan, R.R. 2, Simcoe; also two brothers, Charles of Ponthill, and Robert, of Grimsby; and two sisters, Mrs. Joseph Marlow, North Grimsby, and Mrs. Arthur Cox, of Bradford.

Funeral service was held from Stonehouse Funeral Home, Grimsby, on Wednesday, at 2 p.m., with Rev. J. P. McLeod officiating. Interment was made in Queen's Lawn Cemetery.

Casket bearers were Lew McNiv, on, George Crittenden, Leslie Shinton, Oscar Bowman, Clifford Field, and George Douglas.

## WOLF CUB PACK

1st GRIMSBY WOLF CUBS  
Baloo took charge of the earliest group of Cubs to arrive at the pack den last Friday evening and led them to the mountainside outside of town. There the cubs had themselves so well that the rest of the Pack brought to the same region by Akela had great difficulty in finding them.

Jimmy Brown was invested as a Wolf Cub in the lovely spring surroundings and was welcomed to the Pack by Senior Sisker John Brooks. The pack was divided into three groups under Baloo, Kim and Raksha for a number of round songs. Kim's group ended up the winners in the round "Tendered Tim."

The meeting on Friday, May 20, will take place at the Public School at the regular time.

Service Stars will be presented to Don Wilson, Jim Fallowell, Ron Hyland, Larry MacPhail and Hans Yimar. Seconds will be chosen for two of the Stars that have that office open.

## GRIMSBY RADIO OPENS AT NEW LOCATION

Mr. John Panchyashyn, Grimsby Radio and Electric Shop, has moved to his new location, 18 Main W., formerly occupied by Vernon Tuck. New lighting fixtures and interior decorating work have completely changed the interior aspect of the shop and a new paint job is slabs for the exterior in the near future. Business has expanded since the move and better and faster service is the aim of the firm. Before long a new Record Bar will be installed with a complete line of the latest records. A complete line of electrical appliances including refrigerators, stoves, washers and radios is well displayed, and a repair service for all

such major appliances. The firm boasts a qualified electrical contractor and an excellent radio repair service. Looking to the future, the proprietor has established a television service and to prove his skill has built his own T.V. set on which he regularly receives broadcasts from WBEW-TV in Buffalo.

## X-RAY CAMPAIGN IS MOST SUCCESSFUL

The following letter is self explanatory in regards the recent X-Ray survey in Grimsby. It is to be noted that the biggest day of the survey saw 920 people checked through. This means that the unit was running at its maximum rate of 100 people per hour for better than nine hours.

Mr. J. G. Walker, Chairman, Health and Welfare Committee, Grimsby Lions Club, Grimsby, Ontario.

I wish to take this opportunity to extend our sincere thanks to the Grimsby Lions Club and the associated groups of people for the efficient job which they did in order to complete the mass survey conducted in Grimsby and N. Grimsby Township this past week. Even though we did not reach our goal of x-raying 100% of the population over 16 years of age, nevertheless I feel that the 2,780 x-rays which were taken is a most encouraging figure. Perhaps many of the people who did not turn up for x-ray will do so at a later date and in this way we shall eventually reach our objective.

This is the largest survey which we have conducted to date, and it was a pleasure to be associated with such a fine group of people.

May I again extend to the Grimsby Lions Club our sincerest thanks for the excellent job which they did in carrying out this project.

C. G. Shaver, M.B.E., Superintendent.

Excavation work is finished on the new addition to Trinity United Church and the pouring of the concrete for the basement is well under way.

Two bus-loads of "shot-ins" totaling one hundred people from the Carlton St. United Church came to Grimsby on an outing last Saturday and were treated to their lunch in the Auditorium of Grimsby High School. The Trinity Service Group of the W.A. catered to the group and the ladies responsible for serving were Mesdames Victor Canton, W. H. Kletterborn, Don Marshall, Reg. Cloughley, Douglas Hartnet, Earl Marsh, Leslie Stewart, Erwin Phelps, Norman Bowers, Donald Beamer and H. R. Dowie.

# NEW MEDICINE OFFERS RELIEF TO THOUSANDS

MOUNT HOPE MAN RELIEVES BACKACHE  
AND CONSTIPATION

MR. PAUL R. BEAMER

Mr. Paul R. Beamer, Mount Hope, Ontario, writes: "I think Sarnak is wonderful. I tried many remedies to get relief from constipation and backache, but nothing seemed to help me. I started taking Sarnak, and it relieved my backache, and started to make me regular. Sarnak is not disagreeable to take, and its effect on the bowels is mild and gentle."

Many people experience pain and suffering with a combination of backache, kidney trouble and constipation. If you suffer this way, get relief on Mr. Beamer did, by starting to take Sarnak today.

## RECOMMENDED FOR

Rheumatic, Arthritic, Neuritic Pains, Backache, Weak Kidneys, Stomach upsets, Dizzy Spells, Nervousness, Sleeplessness, Poor Appetite, Headaches, Constipation, Lack of Vitality.

## WILL SARNAK HELP YOU?

The Testimonial above is only one of the many that arrive every day. Many of these people once felt as perhaps you do now, that they could not get relief from their suffering; then they tried Sarnak! Sarnak brought them relief. Let Sarnak bring you relief.
